According to our (LP Info Research) latest study, the global Payables Supply Chain Finance market size was valued at US\$ million in 2022. With growing demand in downstream market and recovery from influence of COVID-19 and the Russia-Ukraine War, the Payables Supply Chain Finance is forecast to a readjusted size of US\$ million by 2029 with a CAGR of % during review period.

The research report highlights the growth potential of the global Payables Supply Chain Finance market. With recovery from influence of COVID-19 and the Russia-Ukraine War, Payables Supply Chain Finance are expected to show stable growth in the future market. However, product differentiation, reducing costs, and supply chain optimization remain crucial for the widespread adoption of Payables Supply Chain Finance. Market players need to invest in research and development, forge strategic partnerships, and align their offerings with evolving consumer preferences to capitalize on the immense opportunities presented by the Payables Supply Chain Finance market.

Payables Supply Chain Finance (PSCF) is a buyer-led programme within which sellers in the buyer's supply chain are able to access finance by means of receivables purchase. This means that the seller can receive an early payment from a finance provider for the invoices that the buyer has approved, at a discounted rate that reflects the buyer's credit risk. The buyer pays the full amount of the invoice to the finance provider on the due date. PSCF can help both buyers and sellers optimize their working capital, improve their cash flow and strengthen their supply chain relationships.
