Personal cleaning products play an essential role in our lives and help us in keeping clean, hygienic and healthy. Through their ability to loosen dirt, impurities, oil and environmental pollutants from our body, they contribute to good personal hygiene, reduce the presence of germs, and prevent our bodies from getting infected by various diseases. These products are formulated using surfactants to get their cleaning action. The choice or selection of a cleaning agent depends on desired characteristics in the final product, such as lathering, feels on the skin and rinsability.
