According to our LPI (LP Information) latest study, the global Pet Pram market size was valued at US\$ million in 2023. With growing demand in downstream market, the Pet Pram is forecast to a readjusted size of US\$ million by 2030 with a CAGR of % during review period.

The research report highlights the growth potential of the global Pet Pram market. Pet Pram are expected to show stable growth in the future market. However, product differentiation, reducing costs, and supply chain optimization remain crucial for the widespread adoption of Pet Pram. Market players need to invest in research and development, forge strategic partnerships, and align their offerings with evolving consumer preferences to capitalize on the immense opportunities presented by the Pet Pram market.

Smaller domestic animals can be ambulated locally in a pet stroller pushed or pulled by a human; this may be especially useful for ill, lame, and elderly creatures. A pet pram is similar in design to a baby stroller. The stroller may be enclosed with netting to prevent escape while allowing the pet to view, hear, and smell the ambient environment. Unlike a human infant, the animal is not immobilized in the stroller, but is free to move about within it.

According to Our PET Supplies Research Center, the global pet industry reached \$ 261 billion in 2022, a year-on-year increase of 11.3%. The United States gains the highest pet penetration rate and becomes the largest pet market. According to the American Pet Products Association (APPA), 66% of American households keep pets, and the total industry sales was about US\$136.8 billion, an increase of 10.8% over 2021. According to IVH, the German pet products industry association, the number of pets in Germany

reached 33.4 million in 2022, with a total turnover of nearly \$6.5 billion. The 2023 China Pet Industry Trend Insight White Paper released by JD shows that the market size of the four major pet physical commodities is increasing year by year: pet supplies account for 45%, pet staple food accounts for nearly 35%, pet snacks account for 12%, and pet medicine and health care account for 356%.
