According to our LPI (LP Information) latest study, the global Pet Services market size was valued at US\$ million in 2023. With growing demand in downstream market, the Pet Services is forecast to a readjusted size of US\$ million by 2030 with a CAGR of % during review period.

The research report highlights the growth potential of the global Pet Services market. Pet Services are expected to show stable growth in the future market. However, product differentiation, reducing costs, and supply chain optimization remain crucial for the widespread adoption of Pet Services. Market players need to invest in research and development, forge strategic partnerships, and align their offerings with evolving consumer preferences to capitalize on the immense opportunities presented by the Pet Services market.

The increasing population of companion animals, pet humanization, strategies implemented by key companies, and expenditure on pets are some of the key drivers of this market.

Pet medical care is the second largest segment in pet industry. In the UK, annual spending on veterinary and other pet services has risen from ?2.6bn in 2015 to ?4bn in 2021, a 54% increase in just six years. According to Vetnosis, the value of the global animal health industry will increase by 12% to \$38.3 billion in 2021. White Paper on China's Pet Healthy Consumption of JD shows that in 2023, there are 13.09 million pets entering middle age and old age. And pet aging is expected to be seen in the next few years. Changes in the age structure of pets will further bring about the development of

the pet medical industry. According to the data of the 2022 China Pet Medical Industry White Paper, from the perspective of market size, the scale of China's pet medical market is about ?67.5 billion, accounting for about 22.5% of the entire pet industry. From the perspective of hospital operation time, pet hospitals within 5 years accounted for about 73%. About 11% of the pet hospitals have been in operation for more than 10 years. From the perspective of hospital turnover, nearly 40% of the hospitals have increased their annual turnover year-on-year, and the growth rate is mainly within 358%.
