The global Pet Training Button market size is predicted to grow from US\$ 38.2 million in 2025 to US\$ 59.8 million in 2031; it is expected to grow at a CAGR of 7.8% from 2025 to 2031.

The impact of the latest U.S. tariff measures and the corresponding policy responses from countries worldwide on market competitiveness, regional economic performance, and supply chain configurations will be comprehensively evaluated in this report.

A pet training button is an intelligent device used to help pets with behavioral training. It is usually composed of buttons that can make sounds. The owner can pre-record commands (such as 'go out', 'eat', 'play', etc.). Through repeated training, the pet can learn to press the corresponding buttons to express needs or understand commands, thereby enhancing communication and interaction between humans and pets. It is commonly used in the intelligent training of dogs or cats.
