Pole POS Customer Display is an electronic device that is an important part of a point - of - sale system. The POS customer display usually has a screen that can vary in size. Sizes typically range from a few inches to around 10 - 15 inches diagonally. It is designed to be placed in a position that is easily visible to the customer, often mounted on a stand next to the cashier's terminal or integrated into the overall POS setup. The display may have a simple, sleek design to fit in with the aesthetics of the store's checkout area. It is usually connected to the main POS terminal through a cable (such as a USB or Ethernet cable), although some newer models may support wireless connectivity. This connection allows it to receive and display information in real - time from the POS system.
