Abstracts

According to this study, the global Port Pilotage Services market size will reach US$ 7493 million by 2031.

Port Pilotage Services refers to the services provided by professionally qualified pilots (Pilots) to provide navigation, berthing, turning and other operational guidance for ships entering or leaving the port, sailing or shifting within the port. Its core purpose is to ensure the safe navigation of ships in complex water environments through the pilots' professional knowledge of port hydrology, waterways and traffic rules, and to avoid collisions, groundings and other accidents caused by the captain's unfamiliarity with the port.
