Retail point of sale (POS) software provides an easy-to-use tool for employees and customers, helping to complete retail transactions in physical locations (stores, showrooms, etc.). By using POS software, retail employees can find information about products, create sales orders, accept payments, and deliver receipts in an expeditious manner. This helps employees perform more transactions in less time while customers benefit from shorter waiting times at checkout. POS software can also be used to provide information to customers on product availability, pricing, etc. Furthermore, retail
