The global POU Electric Water Heaters market size is predicted to grow from US\$ million in 2025 to US\$ million in 2032; it is expected to grow at a CAGR of %from 2026 to 2032.

Point of Use Electric water heaters (POU Electric water heaters)can also help reduce heat lost in the water distribution system. The term 'point of use' is applied because water is heated very near the sink, shower or bath where the water is used, instead of a central heater. POUs are often used to boost the temperature of water at a fixture that is a long way from a central water heater.

Asia-Pacific is the fastest growing market.
