Product compliance refers to the proof that a product meets all the requirements of directives, regulations and harmonised standards. Why is this important? Products can only be legally sold in their target market, such as the EU, the United States, China, Japan and most other countries around the world, if they comply with the regulations in force in that country. In many cases, this means that the product must be extensively

tested to prove that it meets the legal requirements of the target market.
