Ready-to-Finish muffins are a type of pre-made, frozen, scoop-and-bake muffin batter product, typically supplied in 9-pound (approximately 4.1 kg) tubs or other frozen packaging. The batter is pre-mixed, homogenized, flavored, and partially processed. Users simply thaw it, portion it into baking pans, and bake; no additional weighing, mixing, or ingredient preparation is required. This solves the problems of inconsistent recipes, long preparation times, high reliance on skilled workers, limited store space, and high food safety risks inherent in traditional baking. It enables bakeries, coffee shops, and restaurant chains to quickly and consistently produce highly consistent muffin products. The average price is approximately \$952 per thousand units, with global sales of approximately 4,049 million units.
