## Abstracts

The global Regulatory Submission and Publishing Services market size is predicted to grow from US\$ 3542 million in 2025 to US\$ 5144 million in 2032; it is expected to grow at a CAGR of 5.5% from 2026 to 2032.

Regulatory Submission and Publishing Services refer to end-to-end specialized professional services for life sciences enterprises including pharmaceuticals, biologics, medical devices and diagnostics, covering the whole process of regulatory dossier compilation, format standardization, compliance verification, official submission and post-submission follow-up, which are tailored to the requirements of global regulatory authorities and technical specifications such as ICH guidelines. These services focus on converting unstructured R&D, clinical and quality data into standardized regulatory documents that meet regional format requirements (eCTD, NeeS, pCTD, etc.), completing format validation, submission delivery and tracking, responding to regulatory queries and updating post-approval variations, ensuring full compliance with regional regulations of FDA, EMA, NMPA and other authorities, and ultimately helping clients reduce compliance risks, shorten product time-to-market and optimize the allocation of internal R&D and regulatory resources.
