The global Residential Bathroom Pods market size is predicted to grow from US\$ 1272 million in 2025 to US\$ 2088 million in 2031; it is expected to grow at a CAGR of 8.6% from 2025 to 2031.

Residential bathroom pods are a turnkey bathroom unit, which is fully fitted and plumbed. They include fixtures commonly found within a bathroom, such as a toilet, shower, sink, handrails and bath.

The self-contained design also means less cleaning and maintenance once the bathroom is installed. The pods are resistant to mould and bacterial growth and therefore cleaning and maintenance is kept to a minimum, avoiding the need for harsh chemicals.
