Abstracts

The global Residential Intercom Video Doorbell market size is predicted to grow from US$ 1810 million in 2025 to US$ 2547 million in 2031; it is expected to grow at a CAGR of 5.9% from 2025 to 2031.

A Intercom Video Doorbell is a communication system that allows two-way audiovisual communication between the inside and outside of a building, typically used to control access to the building. It consists of a video camera and a speaker or microphone installed at the entrance (called a door station), and a display screen and speaker inside the building (called the indoor unit). This system enables the person inside to see and hear visitors at the door, and, if desired, engage in conversation and grant access by unlocking the door remotely. It enhances security by allowing residents to visually verify visitors before permitting entry.

This report only studies Residential Intercom Video Doorbell.

The Intercom Video Doorbells market has experienced significant growth over the past few years, driven by increasing security concerns, technological advancements, and the rising demand for smart home solutions. A Intercom Video Doorbell and Equipment or doorbell phone is a vital communication device that allows two-way communication between residents and visitors, enhancing the security and convenience of homes, offices, and buildings.

The Intercom Video Doorbell market serves a variety of applications, with the largest market share coming from residential use. Residential buildings, including houses, apartments, and villas, make up the dominant segment of the market. With increasing concerns over home security, more homeowners are opting for doorphones to screen

visitors and ensure their safety. The popularity of video intercoms in residential settings is particularly notable, as homeowners seek advanced features that offer both convenience and enhanced security.

The Asia-Pacific region is the largest consumer market for Intercom Video Doorbell, accounting for over 50% of the global market share. This dominance can be attributed to the rapid urbanization, growing middle class, and increasing demand for smart home products in countries such as China, India, Japan, and South Korea. In these countries, the adoption of Intercom Video Doorbell has risen significantly, driven by the need for enhanced security solutions in residential and commercial buildings.

In conclusion, the Intercom Video Doorbell market is poised for continued growth, driven by technological advancements, increased security concerns, and the growing demand for smart home solutions. Video intercoms are set to dominate the market, with their superior security features and integration with smart technologies. Residential applications will remain the largest segment, while the commercial sector continues to play a significant role in driving market expansion. The Asia-Pacific region is expected to maintain its dominance, with substantial growth opportunities in emerging markets. As technology continues to evolve, the Intercom Video Doorbell market will see further innovations, making it an essential part of modern security systems in both residential and commercial spaces.
