The global Retail Shopping Bag market size is predicted to grow from US\$ million in 2025 to US\$ million in 2032; it is expected to grow at a CAGR of % from 2026 to 2032.

A retail shopping bag is a bag provided by retail stores to customers for carrying purchased goods. These bags can be made from a variety of materials, including plastic, paper, or fabric, and come in different sizes and styles to accommodate various types of merchandise. Plastic shopping bags are typically lightweight and waterproof, while paper bags are often recyclable and biodegradable. Fabric shopping bags, including reusable options, are durable and environmentally friendly. Retail shopping bags may feature store branding or promotional messages and are designed to offer convenience to customers by making it easy to transport their purchases.
