## Abstracts

According to this study, the global Rideshare market size will reach US\$ 7657 million by 2031.

Rideshare is a travel service based on the sharing economy model, which means that the car owner actively provides the vacant seat to other passengers who have the same or similar route needs through the platform while driving, and the passengers pay a certain fee to subsidize the car owner's fuel and road expenses. This service is usually booked and dispatched through a mobile application platform, and has the characteristics of convenience, flexibility, and low cost. Hitchhiking can be a temporary carpooling for personal travel, or a shared travel service organized and managed by the platform.
