Abstracts

The global (S)-Equol market size is predicted to grow from US\$ million in 2025 to US\$ million in 2032; it is expected to grow at a CAGR of %from 2026 to 2032.

(S)-Equol is a more potent phytoestrogen derived from the transformation of soy isoflavones by gut microbiota. It has a stronger affinity for estrogen receptors and possesses various potential biological activities, including antioxidant effects, immune modulation, alleviation of menopausal symptoms, and benefits for bone and cardiovascular health. It is commonly used in health supplements, cosmetics, and pharmaceuticals.

The core raw material is daidzein, extracted from soybeans, and the process also involves the selection and breeding of special microorganisms (such as lactic acid bacteria and bifidobacteria). Downstream applications are highly concentrated in the health consumer sector, mainly covering dietary supplements for menopausal health, cosmeceutical products focused on skin anti-aging, and pharmaceutical research and development.

Global sales in 2025 are projected to be approximately 900 kilograms, with an average market price of around \$6,000 per kilogram. Industry gross profit margins are expected to be in the range of 15%-30%.

(S)-Equol is considered a substance with the potential to redefine the standards of women's health supplements, particularly due to its advantages in regulating hormonal balance and managing menopausal symptoms, which are gradually being recognized by consumers and supported by some scientific evidence. Its naturally derived hormone-like effects make it more appealing in the health supplement market than traditional synthetic hormone replacement therapies.

The industry's driving factors stem primarily from consumers' increasing preference for natural, functional health products. The global nutraceutical and natural products market is already on an upward trend, with hormone balance and women's health being among the fastest-growing segments. (S)-Equol, as a metabolite of soy isoflavones, fits this trend due to its specific natural and active characteristics, which has driven manufacturers and brands to incorporate it into nutritional supplements, functional foods, and pharmaceutical formulations.

LP Information, Inc. (LPI) ' newest research report, the '(S)-Equol Industry Forecast' looks at past sales and reviews total world (S)-Equol sales in 2025, providing a comprehensive analysis by region and market sector of projected (S)-Equol sales for 2026 through 2032. With (S)-Equol sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US\$ millions of the world (S)-Equol industry.

This Insight Report provides a comprehensive analysis of the global (S)-Equol landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyzes the strategies of leading global companies with a focus on (S)-Equol portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms' unique position in an accelerating global (S)-Equol market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for (S)-Equol and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global (S)-Equol.

This report presents a comprehensive overview, market shares, and growth opportunities of (S)-Equol market by product type, application, key manufacturers and key regions and countries.

Contents

1 SCOPE OF THE REPORT

- 1.1 Market Introduction
- 1.2 Years Considered
- 1.3 Research Objectives
- 1.4 Market Research Methodology
- 1.5 Research Process and Data Source
- 1.6 Economic Indicators
- 1.7 Currency Considered
- 1.8 Market Estimation Caveats

2 EXECUTIVE SUMMARY

- 2.1 World Market Overview
 - 2.1.1 Global (S)-Equol Annual Sales 2021-2032
 - 2.1.2 World Current & Future Analysis for (S)-Equol by Geographic Region, 2021, 2025 & 2032
 - 2.1.3 World Current & Future Analysis for (S)-Equol by Country/Region, 2021, 2025 & 2032
- 2.2 (S)-Equol Segment by Type
 - 2.2.1 Purity?99%
 - 2.2.2 Purity
