Abstracts

The global Self-Service Book Sterilizer market size is predicted to grow from US$ 46.96 million in 2025 to US$ 98 million in 2032; it is expected to grow at a CAGR of 11.3% from 2026 to 2032.

In 2024, global Self-Service Book Sterilizer production reached approximately 6682 units, with an average global market price of around US$6585 per unit. A self-service book sterilizer is an intelligent device designed for libraries, schools, bookstores, and other public reading environments. It typically applies ultraviolet light, ozone, negative ions, or circulating air to disinfect book surfaces and the surrounding air, while also removing dust and odors. This process helps reduce the risk of cross-infection and ensures hygienic, safe reading conditions. Users can operate the sterilizer independently through a simple interface by placing books inside, with the process usually completed in less than a minute. With increasing awareness of public health, self-service book sterilizers are becoming an essential facility in smart libraries and educational institutions. The upstream suppliers of self-service book sterilizers primarily include suppliers of core components and technologies, such as UV lamps/UV LEDs, ozone generators, negative ion devices, air filtration systems, and motors. The downstream application areas of self-service book sterilizers are primarily concentrated in public reading and education scenarios, including public libraries, university and primary and secondary school libraries, bookstores, and archives.

United States market for Self-Service Book Sterilizer is estimated to increase from US$ million in 2025 to US$ million by 2032, at a CAGR of % from 2026 through 2032.

China market for Self-Service Book Sterilizer is estimated to increase from US$ million in 2025 to US$ million by 2032, at a CAGR of % from 2026 through 2032.

Report Scope

LP Information, Inc. (LPI) ' newest research report, the “Self-Service Book Sterilizer Industry Forecast” looks at past sales and reviews total world Self-Service Book Sterilizer sales in 2025, providing a comprehensive analysis by region and market sector of projected Self-Service Book Sterilizer sales for 2026 through 2032. With Self-Service Book Sterilizer sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US$ millions of the world Self-Service Book Sterilizer industry.

This Insight Report provides a comprehensive analysis of the global Self-Service Book Sterilizer landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyzes the strategies of leading global companies with a focus on Self-Service Book Sterilizer portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms’ unique position in an accelerating global Self-Service Book Sterilizer market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Self-Service Book Sterilizer and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Self-Service Book Sterilizer.

This report presents a comprehensive overview, market shares, and growth opportunities of Self-Service Book Sterilizer market by product type, application, key manufacturers and key regions and countries.
