The report requires updating with new data and is sent in 48 hours after order is placed.

The global Service Resource Planning (SAP) market size is projected to grow from US$ 502.8 million in 2022 to US$ 767.3 million in 2029; it is expected to grow at a CAGR of 6.2% from 2023 to 2029.

SRP provides the systems basis for initiation, planning, resource management, execution, close and control of projects and services. An SRP solution combines the best elements of previous standalone business applications for accounting (ERP), client relationship management (CRM) and professional services automation (PSA) to support the entire bid-to-bill lifecycle of project- and service-driven organizations.

Combining the best of CRM, PSA and ERP applications, Service Resource Planning (SRP) is a strategic planning tool for executives to gain an understanding of current and future business operations. The integration of these core applications provides the systems background for visibility and control of all aspects of the business.
