The upstream mainly includes PVC resin, rubber, nylon/wool fiber, PU/epoxy resin, mineral fillers, fiberglass, aluminum, plywood, flame retardants, surface treatment agents, adhesives, and noise-reducing padding; the midstream involves flooring manufacturing, flame retardant and acoustic design, cutting and prefabrication, certification testing, and installation system development; the downstream connects shipyards, interior general contractors, cruise lines, ferry operators, and offshore engineering EPC companies. Gross profit margins range from approximately 20% to 35%.
