Abstracts

The global Small and Medium Articulated Robot market size is predicted to grow from US\$ 3643 million in 2025 to US\$ 7014 million in 2032; it is expected to grow at a CAGR of 10.6% from 2026 to 2032.

Small and Medium Articulated Robots are multi-joint industrial robotic arms, typically with 4–6 axes and payload capacities ranging from light-duty to mid-range loads, designed to perform flexible, high-precision, and repeatable operations such as handling, assembly, welding, and inspection, widely used in automated production lines where space efficiency, speed, and cost-performance balance are critical.

The small and medium articulated robot industry chain begins upstream with suppliers of servo motors, reducers, controllers, encoders, sensors, bearings, cables, and structural materials, continues midstream with robot manufacturers conducting mechanical design, kinematic optimization, control algorithm development, system integration, assembly, calibration, and testing, and extends downstream to system integrators, automation solution providers, equipment OEMs, and end-user manufacturers in automotive, electronics, battery, metalworking, and general industrial automation applications worldwide.

Projects under construction and planned in the small and medium articulated robot market mainly include expansion of robot assembly and testing lines, construction of intelligent manufacturing bases, localization projects for servo motor and reducer production, upgrades of digital twin and simulation laboratories, establishment of R&D centers focusing on high-speed motion control and AI vision integration, and joint automation projects between robot manufacturers, system integrators, and end-user factories in automotive, electronics, and new energy sectors.

2025 Global Market sales Volume: 380,000 Units. Average Global Market Price: USD 9,800 Per Unit. Market Average Gross Profit Margin: 35%.

United States market for Small and Medium Articulated Robot is estimated to increase from US\$ million in 2025 to US\$ million by 2032, at a CAGR of % from 2026 through 2032.

China market for Small and Medium Articulated Robot is estimated to increase from US\$ million in 2025 to US\$ million by 2032, at a CAGR of % from 2026 through 2032.

Europe market for Small and Medium Articulated Robot is estimated to increase from US\$ million in 2025 to US\$ million by 2032, at a CAGR of % from 2026 through 2032.

Global key Small and Medium Articulated Robot players cover FANUC, ABB, Yaskawa, KUKA, DENSO Robotics, etc. In terms of revenue, the global two largest companies occupied for a share nearly % in 2025.

LP Information, Inc. (LPI) ' newest research report, the "Small and Medium Articulated Robot Industry Forecast" looks at past sales and reviews total world Small and Medium Articulated Robot sales in 2025, providing a comprehensive analysis by region and market sector of projected Small and Medium Articulated Robot sales for 2026 through 2032. With Small and Medium Articulated Robot sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US\$ millions of the world Small and Medium Articulated Robot industry.

This Insight Report provides a comprehensive analysis of the global Small and Medium Articulated Robot landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyzes the strategies of leading global companies with a focus on Small and Medium Articulated Robot portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms' unique position in an accelerating global Small and Medium Articulated Robot market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Small and Medium Articulated Robot and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced

view of the current state and future trajectory in the global Small and Medium Articulated Robot.

This report presents a comprehensive overview, market shares, and growth opportunities of Small and Medium Articulated Robot market by product type, application, key manufacturers and key regions and countries.

Segmentation by Type:

Contents

1 SCOPE OF THE REPORT

- 1.1 Market Introduction
- 1.2 Years Considered
- 1.3 Research Objectives
- 1.4 Market Research Methodology
- 1.5 Research Process and Data Source
- 1.6 Economic Indicators
- 1.7 Currency Considered
- 1.8 Market Estimation Caveats

2 EXECUTIVE SUMMARY

- 2.1 World Market Overview
 - 2.1.1 Global Small and Medium Articulated Robot Annual Sales 2021-2032
 - 2.1.2 World Current & Future Analysis for Small and Medium Articulated Robot by Geographic Region, 2021, 2025 & 2032
 - 2.1.3 World Current & Future Analysis for Small and Medium Articulated Robot by Country/Region, 2021, 2025 & 2032
- 2.2 Small and Medium Articulated Robot Segment by Type
 - 2.2.1
