The global Smart Mobile POS market size is predicted to grow from US\$ million in 2025 to US\$ million in 2031; it is expected to grow at a CAGR of %from 2025 to 2031.

Smart Mobile POS is the POS device combined with the technology of Android operating system.

Unlike the traditional POS terminal, Android POS Device can link itself to several checkout terminals in your counter and operated by main computer. With the Android technologies added, the device is programmed; it can track your usage, record sales, monitor updates of dollar changes, calculate orders and payments, and tally inventory sales based on items saved in your system. This POS system gives you control on your business where security control on the cash register have and limit the number of employees who can open this. The Android POS Device is capable of keeping tracks and records of company's sales. Checking the business's profit is much easier compared to tedious manual checking. It can help to improve marketing strategies and technique by analyzing the condition of the business. That's why even small-scale businesses need the help of such device to make their job a lot easier and faster.

In the Chinese market, the major players are Landi, SZZT Electronics, WizarPOS, Newland Payment, Fujian Centerm, Verifone, PAX Technology, Xinguodu, Smartpeak, NEWPOS, Wiseasy Technology and Justtide, etc.
