Smoothing hair care essential oil is a hair care product specially used to care for hair, usually a light oily liquid, rich in various natural or synthetic nourishing ingredients, which can help improve hair texture, reduce frizz, increase shine and softness. These oils are usually designed to be applied to wet hair directly after shampooing, or used on dry hair for optimal hair care benefits. As consumer preference for natural and organic products increases, detangling oils for hair may increasingly focus on using natural ingredients to avoid excessive chemical burdens on the hair.
