The global Snorkeling Three-Piece Set market size is predicted to grow from US\$ 1006 million in 2025 to US\$ 1569 million in 2032; it is expected to grow at a CAGR of 6.5% from 2026 to 2032.

In 2025, global Snorkeling Three-Piece Set reached approximately 21,652.7 K sets, with an average global market price of around 47.5 USD/set.

Snorkeling Three-Piece Set, also known as the "ABC Set" in professional contexts, refers to a fundamental and essential equipment combination for snorkeling activities, consisting of three core components: a snorkeling mask, a snorkel, and a pair of fins. The mask features tempered glass lenses and a silicone skirt to cover the eyes and nose, ensuring clear underwater vision and pressure equalization. The snorkel (available in dry, semi-dry, or classic styles) allows breath at the water surface without lifting the head, while fins (including full-foot and open-heel types) provide efficient underwater propulsion. Typically made of materials like silicone, polycarbonate, and durable plastic, the set comes in adult and kids' sizes with functional optimizations such as anti-fogging and quick-release designs, catering to both recreational and entry-level diving needs.

Driven by the global boom in marine tourism, the rising popularity of adventure water sports, and the growth of eco-tourism, the demand for Snorkeling Three-Piece Set maintains steady growth, with the Asia-Pacific region leading the market expansion. Consumer needs are shifting toward personalized, high-performance, and eco-friendly products, such as myopic-adapted masks, lightweight fins, and gear made of sustainable materials. Business opportunities lie in developing innovative products integrated with smart features like camera mounts and anti-fog technology, expanding

overseas markets (especially Southeast Asia) via cross-border e-commerce, launching segmented products for different user groups (beginners, professionals, kids), and strengthening partnerships with travel agencies to enhance product visibility in tourism scenarios.
