Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Solid cosmetics refer to beauty and personal care products that are formulated in solid rather than liquid or cream form. These products include items like solid shampoos, conditioners, lotions, perfumes, and makeup. Solid cosmetics are often more environmentally friendly because they typically use less packaging, especially plastic, and are lighter, reducing transportation emissions. They are also convenient for travel since they are not subject to liquid restrictions on flights. The trend towards solid cosmetics aligns with the growing consumer demand for sustainable, eco-friendly products that reduce waste and have a smaller environmental footprint.

The global Solid Cosmetics market size is projected to grow from US\$ million in 2024 to US\$ million in 2030; it is expected to grow at a CAGR of %from 2024 to 2030.

LP Information, Inc. (LPI) ' newest research report, the "Solid Cosmetics Industry Forecast" looks at past sales and reviews total world Solid Cosmetics sales in 2023, providing a comprehensive analysis by region and market sector of projected Solid Cosmetics sales for 2024 through 2030. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Solid Cosmetics.

The solid cosmetics market is witnessing significant growth driven by increasing consumer demand for sustainable and eco-friendly beauty products. Major sales regions include North America, Europe, and Asia-Pacific, with Europe leading due to stringent regulations on plastic usage and high consumer awareness about sustainability. Market opportunities are abundant, particularly in developing innovative formulations and packaging that minimize environmental impact. However, the market faces challenges such as higher production costs and the need for consumer education on the benefits and use of solid cosmetics. Companies investing in sustainable practices and effective marketing strategies are poised to capture substantial market share.

This report presents a comprehensive overview, market shares, and growth opportunities of Solid Cosmetics market by product type, application, key manufacturers and key regions and countries.
