The global Sous Vide Cooking Machine market size is predicted to grow from US\$ 685 million in 2025 to US\$ 2100 million in 2031; it is expected to grow at a CAGR of 20.5% from 2025 to 2031.

Sous vide is a unique process of cooking, the food must be packaged in a vacuum sealed bag, and then cooked at a low and consistent temperature in a water bath. The process started in France and has been growing in popularity; used by chefs on “Top Chef” and “The Taste”, as well as restaurants all over. The low consistent temperature ensures the food is cooked evenly throughout; this is why when you order steaks at a restaurant, they are so juicy and tender.

Global Sous Vide Cooking Machine key players include Anova (Electrolux), ChefSteps, Gourmia, PolyScience Culinary, Nomiku, etc. Global top five manufacturers hold a share about 50%.

North America is the largest market, with a share over 65%, followed by Europe and China, both have a share about 25 percent.

In terms of product, Immersion Type is the largest segment, with a share over 85%. And in terms of application, the largest application is Home Use, followed by Commercial Use.
