Spare Engine Finance Leasing refers to a finance lease arrangement for an aircraft spare engine in which the lessee effectively assumes most of the economic risks and rewards of ownership over the lease term, typically through a long tenor, fixed payment schedule, and/or a purchase option or title transfer at or near lease expiry. The lessor provides the funding and holds legal title during the lease, while the airline or operator obtains the right to use the serviceable spare engine to secure fleet continuity during MRO shop visits, unscheduled removals, or AOG events. The agreement usually specifies engine configuration and airworthiness documentation, utilization limits (hours/cycles), maintenance and insurance responsibilities, and end-of-term settlement (buyout/transfer conditions or return standards).
