The global Sport Score App market size is predicted to grow from US\$ 3890 million in 2025 to US\$ 6734 million in 2032; it is expected to grow at a CAGR of 8.2% from 2026 to 2032.

A sports score app is a mobile or web app that lets users follow live (or near-real-time) sports results—scores, match status, schedules, standings, and key stats—often with push notifications for goals, runs, cards, injuries, and final results.

The global sport score app market is undergoing a fundamental transformation from a simple 'utility for scores' to an intelligent, AI-driven sports companion ecosystem. It is no longer sufficient to merely provide live scores; the market now demands predictive analytics, hyper-personalization, and seamless integration with betting and fantasy sports platforms.

North America is reported as the largest revenue share in the broader sports app market. Asia-Pacific is often cited as the fastest-growing region which huge mobile-first audiences and major event-driven spikes, e.g., cricket, football. Europe remains highly competitive in football-centric live score ecosystems, with heavy usage driven by football density and multilingual coverage.
