Spray extraction carpet cleaning machine is a highly efficient carpet cleaning device that integrates the functions of spraying cleaning solution and powerful extraction. It effectively cleans deep-seated dirt and stains within carpet fibers in a short period. By utilizing a high-pressure spray nozzle, the machine evenly distributes a specialized cleaning solution onto the carpet surface, penetrating into the fibers to break down stains. Subsequently, a robust suction system quickly recovers the dirty water and impurities into an internal wastewater tank, ensuring rapid carpet drying and preventing secondary contamination. This cleaning method not only enhances cleaning efficiency but also preserves the carpet's texture and color, extending its lifespan. Suitable for various settings including homes, offices, hotels, and restaurants.
