A stainless steel cable tie gun is a manual or electric tool specifically designed for tightening and cutting stainless steel cable ties (also known as stainless steel cable ties). It provides strong pulling force through a mechanical lever or electric drive device to ensure that stainless steel cable ties can firmly lock cables or pipes in harsh environments such as high temperature, high humidity, strong corrosion or high vibration (such as ships, chemicals, electric power, and rail transportation). Its structure usually has an anti-slip handle, adjustable tension and automatic cutting function, which effectively improves construction efficiency and installation consistency. It is a key tool in industrial-grade wiring harness fixation.In 2024, the global production of stainless steel cable tie guns will reach 605,230 units, with an average selling price of US$69 per unit, a single-line production capacity of 10,000 units, and a gross profit margin of 16%.
