The global Tank Trailers market size is predicted to grow from US\$ million in 2025 to US\$ million in 2031; it is expected to grow at a CAGR of %from 2025 to 2031.

A tank trailer is a motor vehicle designed to carry liquefied loads, dry bulk cargo or gases on roads. The largest such vehicles are similar to railroad tank cars which are also designed to carry liquefied loads. Many variants exist due to the wide variety of liquids that can be transported. Tank trucks tend to be large; they may be insulated or non-insulated; pressurized or non-pressurized; and designed for single or multiple loads (often by means of internal divisions in their tank). Some are semi-trailer trucks. They are difficult to drive due to their high center of gravity.

In Europe, the key manufacturers are Schmitz Cargobull, CIMC, Schwarzmüller Group, Kassbohrer, Feldbinder, Wabash National Corporation, Crosstand, Willig, Alura Trailer, Linder Fische, STOKOTA, Amthor International, TANSAN, Welgro etc. Top 3 companies occupied about 40% market share.
