Abstracts

According to this study, the global Telepharmacy Service market size will reach US$ 17080 million by 2031.

Telepharmacy service is a modern healthcare delivery model that leverages telecommunications technology to offer pharmaceutical - related services remotely. It allows pharmacists to perform various professional tasks, such as medication counseling, prescription verification, patient education, and medication therapy management, without being physically present with the patients. By using video conferencing, phone communication, and secure online platforms, telepharmacy services bridge the gap between patients and pharmacists over long distances. This service is particularly valuable in areas with limited access to physical pharmacies, enhancing the accessibility and quality of pharmaceutical care.

United States market for Telepharmacy Service is estimated to increase from US$ million in 2024 to US$ million by 2031, at a CAGR of % from 2025 through 2031.

China market for Telepharmacy Service is estimated to increase from US$ million in 2024 to US$ million by 2031, at a CAGR of % from 2025 through 2031.

Europe market for Telepharmacy Service is estimated to increase from US$ million in 2024 to US$ million by 2031, at a CAGR of % from 2025 through 2031.

Global key Telepharmacy Service players cover CPS Solutions, LLC, Alpha Sophia Technologies GmbH, OSP., Cardinal Health., Infinipharm, LLC, etc. In terms of revenue, the global two largest companies occupied for a share nearly % in 2024.
