## Abstracts

The global Traditional Chinese Veterinary Medicine Preparations market size is predicted to grow from US\$ 885 million in 2025 to US\$ 1369 million in 2032; it is expected to grow at a CAGR of 6.6% from 2026 to 2032.

Traditional Chinese Veterinary Medicine Preparations are finished veterinary products formulated according to the principles of Traditional Chinese Veterinary Medicine and Traditional Chinese Medicine, using Chinese medicinal materials, processed herbal materials, botanical extracts or defined herbal fractions as the principal medicinal substances. Commercial products are manufactured through processes such as herbal material processing, pulverization or ultrafine grinding, aqueous or alcohol extraction, separation, concentration, drying, granulation, liquid preparation, sterilization and filling. Major dosage forms include oral liquids and mixtures, powders, granules, injections, tablets, capsules and other veterinary preparations. These products are primarily used in swine, poultry, ruminants, companion animals, aquaculture and other animal populations for the prevention or management of respiratory, gastrointestinal, reproductive, postpartum, systemic and other disease conditions. Modern Traditional Chinese Veterinary Medicine Preparations increasingly combine traditional prescription theory with standardized extraction, marker-compound control, chromatographic fingerprinting, formulation optimization and more consistent manufacturing practices. This study focuses on commercially manufactured finished preparations specifically intended for animal use and, for global market comparison, covers clearly identified animal-specific TCVM preparations marketed under locally applicable regulatory frameworks.

## Key Findings

China represents the dominant production and consumption market for Traditional Chinese Veterinary Medicine Preparations

Oral liquids and mixtures, powders and granules constitute the main commercial dosage forms

Swine and poultry remain the principal demand base, while companion animals provide an emerging high-value application

The market remains fragmented, with specialist TCVM manufacturers and diversified animal-health companies competing in parallel

## Market Trends

Traditional Chinese Veterinary Medicine Preparations are moving from conventional herbal powders and relatively simple compound formulations toward standardized extracts, concentrated oral liquids, granules and more convenient dosage forms with improved quality consistency. Product development is increasingly focused on controllable herbal sourcing, defined manufacturing processes, marker-compound testing, chromatographic fingerprints, stability management and clearer disease-oriented positioning. Large-scale livestock customers are placing greater emphasis on reproducibility, ease of administration and measurable production outcomes rather than relying solely on traditional therapeutic concepts. At the same time, companion-animal applications are broadening the commercial scope of TCVM, particularly in markets where veterinarian-led integrative medicine is well established. China is also entering a new phase of veterinary medicine standardization: the seventh edition of the Chinese Veterinary Pharmacopoeia will take effect on December 1, 2026, with its second volume dedicated to veterinary Chinese medicines, reinforcing the direction toward more standardized product quality and technical requirements.

## Market Dynamics

### Drivers

Market development is supported by demand for diversified animal disease-management tools, continued efforts to reduce inappropriate antimicrobial use, increasing attention to livestock health management and stronger acceptance of herbal veterinary products within established treatment programs. Expansion of large-scale livestock farming also favors products that can be administered consistently through

feed or drinking-water systems. Regulatory standardization and continued development of veterinary Chinese medicine standards are encouraging manufacturers to improve extraction processes, quality specifications and formulation consistency, which helps strengthen the commercial credibility of the category.

## **Restraints**

The market remains constrained by variability in herbal raw materials, differences in active or marker-compound content, comparatively complex quality-control requirements and inconsistent evidence across individual formulations. Some traditional powder products have relatively low technical barriers and face substantial price competition, while more advanced extract-based products require higher investment in extraction, concentration, drying and analytical testing. Differences in regulatory classification between countries also limit direct international replication of the Chinese veterinary medicine model and increase the difficulty of establishing a unified global product and market-access framework.

## **Opportunities**

The principal opportunities lie in standardized herbal extracts, concentrated granules, oral liquids and other formulations that combine traditional prescriptions with more reproducible manufacturing and easier farm-level administration. Disease-specific solutions for respiratory and gastrointestinal disorders, reproductive and postpartum management and broader animal health support provide room for product differentiation. Companion animals represent another attractive direction, particularly for professionally recommended TCVM products used in veterinary hospitals and clinics. Companies with established extraction capabilities, modern analytical systems and access to large livestock groups or veterinary channels are better positioned to capture higher-value demand.

## **Challenges**

The long-term challenge is to convert traditional therapeutic experience into products with stable composition, reproducible manufacturing and increasingly measurable clinical or production benefits. Competition among numerous regional manufacturers can create pricing pressure, while tightening quality requirements may raise compliance costs for smaller producers. Manufacturers must also balance traditional prescription characteristics with modern standardization without undermining product differentiation. Overseas expansion remains challenging because TCVM products may be classified as veterinary medicines, herbal supplements or other animal-health products depending on

the jurisdiction, requiring market-specific regulatory and channel strategies.

## Industry Chain Analysis

The upstream industry primarily consists of Chinese medicinal materials, processed herbal materials, standardized botanical extracts, pharmaceutical excipients and packaging materials. Herbal-material quality is a major determinant of downstream product consistency, making origin control, species identification, contaminant management, storage conditions and active or marker-component stability increasingly important. Extract-based products add further upstream requirements for extraction solvents, purification, concentration, drying and analytical testing capabilities. Raw-material seasonality and quality variation can directly affect manufacturing costs and batch-to-batch consistency.

The midstream segment covers prescription development, herbal processing, extraction, concentration, granulation, liquid preparation, sterilization, filling, quality control and finished-product manufacturing. Value creation is shifting from simple material processing toward formulation know-how, extraction standardization, quality-control systems, veterinary clinical support and customer-specific disease-management solutions. Downstream demand comes primarily from livestock farms and farming groups, veterinary drug distribution networks, veterinary hospitals and clinics, aquaculture farms and other animal-health customers. Large livestock customers typically emphasize efficacy consistency, administration convenience, cost effectiveness and technical service, while the companion-animal market places greater value on professional veterinary recommendation and differentiated formulations.

## Segment Insights

By dosage form, oral liquids and mixtures, powders and granules constitute the core market and together account for the large majority of commercial demand. Oral liquids are well suited to drinking-water administration and centralized livestock management, while powders remain widely used because of established formulations, broad product availability and relatively straightforward manufacturing. Granules are gaining strategic importance because they can combine standardized extraction with improved handling, dosing consistency and administration convenience. Injections, tablets, capsules and other dosage forms serve more specialized therapeutic or animal-specific requirements and therefore represent smaller but differentiated segments.

By target animal, swine and poultry remain the principal demand categories because of

their large commercial farming populations and frequent use of centralized disease-prevention and treatment programs. Ruminants constitute another established application, particularly for gastrointestinal, reproductive and general health-management products. Companion animals currently represent a smaller share but offer stronger premiumization potential, especially in veterinarian-led TCVM markets. By disease area, respiratory and gastrointestinal diseases are among the most established applications, while reproductive and postpartum conditions, systemic health management and other specialized indications broaden the addressable market.

## **Downstream Market Opportunities**

Large-scale livestock farms and farming groups provide the largest commercial opportunity because standardized farm management creates demand for products that can be administered efficiently, integrated into disease-control programs and evaluated through animal-health and production indicators. Veterinary hospitals and clinics represent a distinct growth opportunity in the companion-animal segment, where professional diagnosis and veterinarian recommendation can support higher-value herbal formulations and longer treatment cycles. Future downstream expansion is therefore likely to follow two parallel routes: standardized, cost-effective preparations for commercial livestock farming and more differentiated, professionally prescribed TCVM products for companion animals.

## **Regional Insights**

China is the core global market for Traditional Chinese Veterinary Medicine Preparations, supported by a mature veterinary medicine manufacturing base, an established Chinese medicinal-material supply chain, formal veterinary medicine standards and large-scale swine, poultry and ruminant industries. The Chinese market also has a broad manufacturer base, ranging from specialist TCVM producers to diversified animal-health companies. Continued improvement in veterinary medicine standards is expected to favor manufacturers with stronger extraction, formulation, quality-control and registration capabilities.

Outside China, the market remains substantially smaller and structurally different. North America is characterized mainly by veterinarian-oriented companion-animal TCVM formulations rather than large-scale livestock applications. Japan maintains a small but identifiable veterinary Kampo segment; Nakamori Pharmaceutical, for example, continues to market officially approved animal-use Kampo powders, granules and tablets for livestock and companion animals. Europe and most other regions rely more

heavily on imported formulations, specialized veterinary channels and localized herbal animal-health practices, and currently have a limited domestic TCVM manufacturing base.

## Competitive Landscape Analysis

The competitive landscape is fragmented and characterized by the coexistence of specialist Traditional Chinese Veterinary Medicine manufacturers and diversified animal-health companies. Specialist producers generally compete through established herbal prescriptions, extraction know-how, product breadth and farm-level technical service, while diversified animal-health companies can leverage broader portfolios, established livestock-group relationships, research capabilities and nationwide distribution networks. The Chinese market contains a particularly large number of regional producers, so competitive position cannot be assessed solely through corporate scale; product registration, formulation depth, manufacturing capability, herbal extraction technology, quality consistency and downstream customer access are all important differentiators. Overseas competition is more concentrated and niche-oriented, with the United States focused primarily on professional companion-animal TCVM channels and Japan retaining a limited veterinary Kampo manufacturing segment. Over time, stronger quality standards, more sophisticated extraction technologies, new product development and increasing requirements from large livestock customers are expected to gradually favor companies with stronger research, registration, manufacturing and technical-service capabilities, while smaller low-differentiation manufacturers may face increasing consolidation pressure.

## Report Scope

LPI (LP Information)' newest research report, the “Traditional Chinese Veterinary Medicine Preparations Industry Forecast” looks at past sales and reviews total world Traditional Chinese Veterinary Medicine Preparations sales in 2025, providing a comprehensive analysis by region and market sector of projected Traditional Chinese Veterinary Medicine Preparations sales for 2026 through 2032. With Traditional Chinese Veterinary Medicine Preparations sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US\$ millions of the world Traditional Chinese Veterinary Medicine Preparations industry.

This Insight Report provides a comprehensive analysis of the global Traditional Chinese Veterinary Medicine Preparations landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest

development, and M&A activity. This report also analyses the strategies of leading global companies with a focus on Traditional Chinese Veterinary Medicine Preparations portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms' unique position in an accelerating global Traditional Chinese Veterinary Medicine Preparations market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Traditional Chinese Veterinary Medicine Preparations and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Traditional Chinese Veterinary Medicine Preparations.

This report presents a comprehensive overview, market shares, and growth opportunities of Traditional Chinese Veterinary Medicine Preparations market by product type, application, key players and key regions and countries.

## **Market Segmentation**

### **Segmentation by Type:**

Oral Liquids and Mixtures

Powders

Granules

Injections

Tablets and Capsules

Other

### **Segmentation by Target Animal:**

Swine

Poultry

Ruminants

Companion Animals

Other

### **Segmentation by Disease Area:**

Respiratory Diseases

Gastrointestinal Diseases

Reproductive Diseases

Liver and Kidney Diseases

Other

### **Segmentation by Application:**

Livestock Farms

Poultry Farms

Veterinary Hospitals and Clinics

Aquaculture Farms

Other

**This report also splits the market by region:**

## Americas

United States

Canada

Mexico

Brazil

## APAC

China

Japan

Korea

Southeast Asia

India

Australia

## Europe

Germany

France

UK

Italy

Russia

## Middle East & Africa

Egypt

South Africa

Israel

Turkey

GCC Countries

The below companies that are profiled have been selected based on inputs gathered from primary experts and analyzing the company's coverage, product portfolio, its market penetration.

Baoding Jizhong Pharmaceutical

Beijing Centre Biology

Jiangxi Zhongcheng Pharmaceutical Group

Zhejiang Jindakang Animal Health Products

Ringpu Bio-technology

Shandong Sinder Technology

Zhaoqing Dahuanong Biology Medicine

Shandong Baisheng Pharmaceutical

Chengdu Qiankun Animal Pharmaceutical

Inner Mongolia Huatian Pharmaceutical

Vland Biotech

Pulike Biological Engineering

Dr. Xie's Jing Tang Herbal

Kan Herb Company

Nakamori Pharmaceutical

## Contents

### 1 SCOPE OF THE REPORT

- 1.1 Market Introduction
- 1.2 Years Considered
- 1.3 Research Objectives
- 1.4 Market Research Methodology
- 1.5 Research Process and Data Source
- 1.6 Economic Indicators
- 1.7 Currency Considered
- 1.8 Market Estimation Caveats

### 2 EXECUTIVE SUMMARY

#### 2.1 World Market Overview

- 2.1.1 Global Traditional Chinese Veterinary Medicine Preparations Market Size (2021-2032)

- 2.1.2 Traditional Chinese Veterinary Medicine Preparations Market Size CAGR by Region (2021 VS 2025 VS 2032)

- 2.1.3 World Current & Future Analysis for Traditional Chinese Veterinary Medicine Preparations by Country/Region (2021, 2025 & 2032)

#### 2.2 Traditional Chinese Veterinary Medicine Preparations Segment by Type

- 2.2.1 Oral Liquids and Mixtures

- 2.2.2 Powders

- 2.2.3 Granules

- 2.2.4 Injections

- 2.2.5 Tablets and Capsules

- 2.2.6 Other

- 2.2.7 Traditional Chinese Veterinary Medicine Preparations Market Size by Type

- 2.2.7.1 Traditional Chinese Veterinary Medicine Preparations Market Size CAGR by Type (2021 VS 2025 VS 2032)

- 2.2.7.2 Global Traditional Chinese Veterinary Medicine Preparations Market Size Market Share by Type (2021-2026)

#### 2.3 Traditional Chinese Veterinary Medicine Preparations Segment by Target Animal

- 2.3.1 Swine

- 2.3.2 Poultry

- 2.3.3 Ruminants

- 2.3.4 Companion Animals

#### 2.3.5 Other

#### 2.3.6 Traditional Chinese Veterinary Medicine Preparations Market Size by Target Animal

##### 2.3.6.1 Traditional Chinese Veterinary Medicine Preparations Market Size CAGR by Target Animal (2021 VS 2025 VS 2032)

##### 2.3.6.2 Global Traditional Chinese Veterinary Medicine Preparations Market Size Market Share by Target Animal (2021-2026)

#### 2.4 Traditional Chinese Veterinary Medicine Preparations Segment by Disease Area

##### 2.4.1 Respiratory Diseases

##### 2.4.2 Gastrointestinal Diseases

##### 2.4.3 Reproductive Diseases

##### 2.4.4 Liver and Kidney Diseases

##### 2.4.5 Other

#### 2.4.6 Traditional Chinese Veterinary Medicine Preparations Market Size by Disease Area

##### 2.4.6.1 Traditional Chinese Veterinary Medicine Preparations Market Size CAGR by Disease Area (2021 VS 2025 VS 2032)

##### 2.4.6.2 Global Traditional Chinese Veterinary Medicine Preparations Market Size Market Share by Disease Area (2021-2026)

#### 2.5 Traditional Chinese Veterinary Medicine Preparations Segment by Application

##### 2.5.1 Livestock Farms

##### 2.5.2 Poultry Farms

##### 2.5.3 Veterinary Hospitals and Clinics

##### 2.5.4 Aquaculture Farms

##### 2.5.5 Other

#### 2.5.6 Traditional Chinese Veterinary Medicine Preparations Market Size by Application

##### 2.5.6.1 Traditional Chinese Veterinary Medicine Preparations Market Size CAGR by Application (2021 VS 2025 VS 2032)

##### 2.5.6.2 Global Traditional Chinese Veterinary Medicine Preparations Market Size Market Share by Application (2021-2026)

### **3 TRADITIONAL CHINESE VETERINARY MEDICINE PREPARATIONS MARKET SIZE BY PLAYER**

#### 3.1 Traditional Chinese Veterinary Medicine Preparations Market Size Market Share by Player

##### 3.1.1 Global Traditional Chinese Veterinary Medicine Preparations Revenue by Player (2021-2026)

##### 3.1.2 Global Traditional Chinese Veterinary Medicine Preparations Revenue Market

Share by Player (2021-2026)

3.2 Global Traditional Chinese Veterinary Medicine Preparations Key Players Head office and Products Offered

3.3 Market Concentration Rate Analysis

3.3.1 Competition Landscape Analysis

3.3.2 Concentration Ratio (CR3, CR5 and CR10) & (2024-2026)

3.4 New Products and Potential Entrants

3.5 Mergers & Acquisitions, Expansion

## **4 TRADITIONAL CHINESE VETERINARY MEDICINE PREPARATIONS BY REGION**

4.1 Traditional Chinese Veterinary Medicine Preparations Market Size by Region (2021-2026)

4.2 Global Traditional Chinese Veterinary Medicine Preparations Annual Revenue by Country/Region (2021-2026)

4.3 Americas Traditional Chinese Veterinary Medicine Preparations Market Size Growth (2021-2026)

4.4 APAC Traditional Chinese Veterinary Medicine Preparations Market Size Growth (2021-2026)

4.5 Europe Traditional Chinese Veterinary Medicine Preparations Market Size Growth (2021-2026)

4.6 Middle East & Africa Traditional Chinese Veterinary Medicine Preparations Market Size Growth (2021-2026)

## **5 AMERICAS**

5.1 Americas Traditional Chinese Veterinary Medicine Preparations Market Size by Country (2021-2026)

5.2 Americas Traditional Chinese Veterinary Medicine Preparations Market Size by Type (2021-2026)

5.3 Americas Traditional Chinese Veterinary Medicine Preparations Market Size by Application (2021-2026)

5.4 United States

5.5 Canada

5.6 Mexico

5.7 Brazil

## **6 APAC**

6.1 APAC Traditional Chinese Veterinary Medicine Preparations Market Size by Region (2021-2026)

6.2 APAC Traditional Chinese Veterinary Medicine Preparations Market Size by Type (2021-2026)

6.3 APAC Traditional Chinese Veterinary Medicine Preparations Market Size by Application (2021-2026)

6.4 China

6.5 Japan

6.6 South Korea

6.7 Southeast Asia

6.8 India

6.9 Australia

## **7 EUROPE**

7.1 Europe Traditional Chinese Veterinary Medicine Preparations Market Size by Country (2021-2026)

7.2 Europe Traditional Chinese Veterinary Medicine Preparations Market Size by Type (2021-2026)

7.3 Europe Traditional Chinese Veterinary Medicine Preparations Market Size by Application (2021-2026)

7.4 Germany

7.5 France

7.6 UK

7.7 Italy

7.8 Russia

## **8 MIDDLE EAST & AFRICA**

8.1 Middle East & Africa Traditional Chinese Veterinary Medicine Preparations by Region (2021-2026)

8.2 Middle East & Africa Traditional Chinese Veterinary Medicine Preparations Market Size by Type (2021-2026)

8.3 Middle East & Africa Traditional Chinese Veterinary Medicine Preparations Market Size by Application (2021-2026)

8.4 Egypt

8.5 South Africa

8.6 Israel

8.7 Turkey

## 8.8 GCC Countries

# 9 MARKET DRIVERS, CHALLENGES AND TRENDS

## 9.2 Market Challenges & Risks

## 9.3 Industry Trends

# 10 GLOBAL TRADITIONAL CHINESE VETERINARY MEDICINE PREPARATIONS MARKET FORECAST

## 10.1 Global Traditional Chinese Veterinary Medicine Preparations Forecast by Region (2027-2032)

### 10.1.1 Global Traditional Chinese Veterinary Medicine Preparations Forecast by Region (2027-2032)

#### 10.1.2 Americas Traditional Chinese Veterinary Medicine Preparations Forecast

#### 10.1.3 APAC Traditional Chinese Veterinary Medicine Preparations Forecast

#### 10.1.4 Europe Traditional Chinese Veterinary Medicine Preparations Forecast

#### 10.1.5 Middle East & Africa Traditional Chinese Veterinary Medicine Preparations Forecast

## 10.2 Americas Traditional Chinese Veterinary Medicine Preparations Forecast by Country (2027-2032)

### 10.2.1 United States Market Traditional Chinese Veterinary Medicine Preparations Forecast

#### 10.2.2 Canada Market Traditional Chinese Veterinary Medicine Preparations Forecast

#### 10.2.3 Mexico Market Traditional Chinese Veterinary Medicine Preparations Forecast

#### 10.2.4 Brazil Market Traditional Chinese Veterinary Medicine Preparations Forecast

## 10.3 APAC Traditional Chinese Veterinary Medicine Preparations Forecast by Region (2027-2032)

### 10.3.1 China Traditional Chinese Veterinary Medicine Preparations Market Forecast

### 10.3.2 Japan Market Traditional Chinese Veterinary Medicine Preparations Forecast

### 10.3.3 Korea Market Traditional Chinese Veterinary Medicine Preparations Forecast

### 10.3.4 Southeast Asia Market Traditional Chinese Veterinary Medicine Preparations Forecast

### 10.3.5 India Market Traditional Chinese Veterinary Medicine Preparations Forecast

### 10.3.6 Australia Market Traditional Chinese Veterinary Medicine Preparations Forecast

## 10.4 Europe Traditional Chinese Veterinary Medicine Preparations Forecast by Country (2027-2032)

### 10.4.1 Germany Market Traditional Chinese Veterinary Medicine Preparations

## Forecast

10.4.2 France Market Traditional Chinese Veterinary Medicine Preparations Forecast

10.4.3 UK Market Traditional Chinese Veterinary Medicine Preparations Forecast

10.4.4 Italy Market Traditional Chinese Veterinary Medicine Preparations Forecast

10.4.5 Russia Market Traditional Chinese Veterinary Medicine Preparations Forecast

10.5 Middle East & Africa Traditional Chinese Veterinary Medicine Preparations  
Forecast by Region (2027-2032)

10.5.1 Egypt Market Traditional Chinese Veterinary Medicine Preparations Forecast

10.5.2 South Africa Market Traditional Chinese Veterinary Medicine Preparations

## Forecast

10.5.3 Israel Market Traditional Chinese Veterinary Medicine Preparations Forecast

10.5.4 Turkey Market Traditional Chinese Veterinary Medicine Preparations Forecast

10.6 Global Traditional Chinese Veterinary Medicine Preparations Forecast by Type  
(2027-2032)

10.7 Global Traditional Chinese Veterinary Medicine Preparations Forecast by  
Application (2027-2032)

10.7.1 GCC Countries Market Traditional Chinese Veterinary Medicine Preparations  
Forecast

## 11 KEY PLAYERS ANALYSIS

### 11.1 Baoding Jizhong Pharmaceutical

11.1.1 Baoding Jizhong Pharmaceutical Company Information

11.1.2 Baoding Jizhong Pharmaceutical Traditional Chinese Veterinary Medicine  
Preparations Product Offered

11.1.3 Baoding Jizhong Pharmaceutical Traditional Chinese Veterinary Medicine  
Preparations Revenue, Gross Margin and Market Share (2021-2026)

11.1.4 Baoding Jizhong Pharmaceutical Main Business Overview

11.1.5 Baoding Jizhong Pharmaceutical Latest Developments

### 11.2 Beijing Centre Biology

11.2.1 Beijing Centre Biology Company Information

11.2.2 Beijing Centre Biology Traditional Chinese Veterinary Medicine Preparations  
Product Offered

11.2.3 Beijing Centre Biology Traditional Chinese Veterinary Medicine Preparations  
Revenue, Gross Margin and Market Share (2021-2026)

11.2.4 Beijing Centre Biology Main Business Overview

11.2.5 Beijing Centre Biology Latest Developments

### 11.3 Jiangxi Zhongcheng Pharmaceutical Group

11.3.1 Jiangxi Zhongcheng Pharmaceutical Group Company Information

11.3.2 Jiangxi Zhongcheng Pharmaceutical Group Traditional Chinese Veterinary Medicine Preparations Product Offered

11.3.3 Jiangxi Zhongcheng Pharmaceutical Group Traditional Chinese Veterinary Medicine Preparations Revenue, Gross Margin and Market Share (2021-2026)

11.3.4 Jiangxi Zhongcheng Pharmaceutical Group Main Business Overview

11.3.5 Jiangxi Zhongcheng Pharmaceutical Group Latest Developments

11.4 Zhejiang Jindakang Animal Health Products

11.4.1 Zhejiang Jindakang Animal Health Products Company Information

11.4.2 Zhejiang Jindakang Animal Health Products Traditional Chinese Veterinary Medicine Preparations Product Offered

11.4.3 Zhejiang Jindakang Animal Health Products Traditional Chinese Veterinary Medicine Preparations Revenue, Gross Margin and Market Share (2021-2026)

11.4.4 Zhejiang Jindakang Animal Health Products Main Business Overview

11.4.5 Zhejiang Jindakang Animal Health Products Latest Developments

11.5 Ringpu Bio-technology

11.5.1 Ringpu Bio-technology Company Information

11.5.2 Ringpu Bio-technology Traditional Chinese Veterinary Medicine Preparations Product Offered

11.5.3 Ringpu Bio-technology Traditional Chinese Veterinary Medicine Preparations Revenue, Gross Margin and Market Share (2021-2026)

11.5.4 Ringpu Bio-technology Main Business Overview

11.5.5 Ringpu Bio-technology Latest Developments

11.6 Shandong Sinder Technology

11.6.1 Shandong Sinder Technology Company Information

11.6.2 Shandong Sinder Technology Traditional Chinese Veterinary Medicine Preparations Product Offered

11.6.3 Shandong Sinder Technology Traditional Chinese Veterinary Medicine Preparations Revenue, Gross Margin and Market Share (2021-2026)

11.6.4 Shandong Sinder Technology Main Business Overview

11.6.5 Shandong Sinder Technology Latest Developments

11.7 Zhaoqing Dahuanong Biology Medicine

11.7.1 Zhaoqing Dahuanong Biology Medicine Company Information

11.7.2 Zhaoqing Dahuanong Biology Medicine Traditional Chinese Veterinary Medicine Preparations Product Offered

11.7.3 Zhaoqing Dahuanong Biology Medicine Traditional Chinese Veterinary Medicine Preparations Revenue, Gross Margin and Market Share (2021-2026)

11.7.4 Zhaoqing Dahuanong Biology Medicine Main Business Overview

11.7.5 Zhaoqing Dahuanong Biology Medicine Latest Developments
