Pure Tung Oil is a finishing product that provides a tough, flexible and highly water-resistant coating. It is classed as a drying oil along with linseed, poppy seed, safflower seed, walnut, soybean, oiticica and a few other oils. Although it is relatively new to the Western world, tung oil has been known for centuries to the Chinese, and until this century, China was the main source for the oil. It comes from the seed of the tung trees, *Aleurites fordii* and *Aleurites montana*, deciduous trees that are very susceptible to frost damage. This vulnerability has restricted the cultivation of the tung trees to China and South America.

North America is the largest Tung Oil market with about 34% market share. China is follower, accounting for about 23% market share.

The key manufacturers are Oleaginoso RAATZ, Wuzhou Oasis Chemicals, Xunyang

Mingwen Oil, Qiubei County Shuanglong Oil, Jinxing Tung Oil etc. Top 3 companies occupied about 58% market share.
