An umbrella stand is a storage device for umbrellas and walking sticks. They are usually located inside the entrance of a home or public building, and are sometimes complemented by a hanger or mirror, or combined with a coat rack.

The stand is used to hold umbrellas when they are not in use. In public spaces, their use is usually limited to rainy days when employees and visitors need to carry umbrellas. Umbrellas can be closed and placed in the stand. They are usually dropped off upon entering the building and collected when leaving the building. This is useful because wet umbrellas may cause a wet floor, which could pose a hazard of slipping.
