## Abstracts

The global Urban Services market size is predicted to grow from US$ 534290 million in 2025 to US$ 615490 million in 2031; it is expected to grow at a CAGR of 2.4% from 2025 to 2031.

Urban Services is the extension of traditional residential and commercial property management expertise and technical capabilities to urban public space and infrastructure. This covers the maintenance and management of urban public facilities, the cleaning and renovation of environmental health, the maintenance and improvement of green landscape, the auxiliary management of traffic order, and the optimal provision of community public services. Through multiple service contents and innovative modes, we can help the city to enhance its image, improve residents' lives, enhance operational efficiency, promote sustainable urban development, and realize the transformation and upgrading from single property project management to urban integrated service operation.

United States market for Urban Services is estimated to increase from US$ million in 2024 to US$ million by 2031, at a CAGR of % from 2025 through 2031.
