Vetiver oil is well-known for its complex and earthy aroma and is used extensively in perfumery and aromatherapy.

Vetiverol is one of the key components responsible for the characteristic scent of vetiver oil. It is a colorless to pale yellow liquid with a woody, smoky, and slightly sweet aroma. This compound, along with other sesquiterpenoids present in vetiver oil, contributes to its unique fragrance profile and has made it a popular choice in the fragrance industry for both men's and women's perfumes.
