The women sandals are perfect for summer, sometimes have straps around the ankle. Women sandals can also have a heel. The reason behind women- choosing- sandals, is the comfort, affordability, and as a fashion choice. Women's sandals have a sole, either made from wood, leather, rubber, rope or tatami. They are versatile, trendy and eye-catching with bright colours.

High-heeled sandals are the common type of women sandal. They can be formal or casual- made according to the need of the occasion. Hiking or trekking women sandals are specially designed for trekking or hiking in tropical and hot climate with rubber sole. Sports women sandals are popular for outdoor activities. The open thong is a dressier version of a flip-flop which gives nicer look and shape to feet. Closed toe sandals give support to feet and hide the feet that need a pedicure.
