## Abstracts

The future of the global access control as a service market looks attractive with opportunities in the commercial, manufacturing and industrial, government bodies, residential, transportation, healthcare, education, and utilities. The global access control as a service market is expected to decline in 2020 due to global economic recession led by COVID-19. However, the market will witness recovery in the year 2021, and it is expected to reach an estimated \$1.1 billion by 2025 with a CAGR of 10%-12% from 2019 to 2025. The major drivers for this market are increasing uses of cloud computing platforms and IoT technology, growing demand for cloud based hosted and managed services, and rising adoption of electronic security products in access control as a services market..

Dormakaba, Assa Abloy AB, Honeywell Security, Microsoft Corporation, Brivo Inc, Cisco Systems, Inc., and Digital Hands are among the major access control as a service manufacturers.

A total of 80 figures/charts and 74 tables are provided in this 150-page report to help in your business decisions. A sample figure with insights is shown below. To learn the scope of benefits, companies researched, and other details of the access control as a service market report, please download the report brochure.

Lucintel forecasts that managed service will remain the largest service type, and it is also expected to witness the highest growth over the forecast period, as it is managed by third party service providers, which helps organizations to manage the access rights.

Within the access control as a service market, commercial will remain the largest end use industry due to increasing adoption of AcaaS particularly in small- to medium-sized businesses (SMBs) as it provide cost savings and continued support and scalability benefits.

North America will remain the largest region due to growing demand for security solutions and advancement in cloud-based technologies. APAC is expected to witness the highest growth over the forecast period supported by increasing adoption of ACaaS system in commercial, government bodies, and manufacturing and industrial applications.

Features of the Global Access Control as a Service Market

Market Size Estimates: Access control as a service market size estimation in terms of value (\$M) shipment. Trend and Forecast Analysis: Market trends (2014-2019) and forecast (2020-2025) by various segments and regions. Segmentation Analysis: Access control as a service market size by various segments, such as end use industry, service, deployment, and regions in terms of value. Regional Analysis: Smart elevator market breakdown by North America, Europe, Asia Pacific, and Rest of the World. Growth Opportunities: Analysis on growth opportunities in different end use industries, service types, deployments, and regions for the access control as a service market. Strategic Analysis: This includes M&A, new product development, and competitive landscape for the access control as a service market. Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

- Q.1 What are some of the most promising, high-growth opportunities for the global access control as a service by access control as a service by end use industry (commercial, manufacturing and industrial, government bodies, residential, transportation, healthcare, education, and utilities), service (hosted, managed, and hybrid), deployment (public cloud, private cloud, and hybrid cloud), and region (North America, Europe, Asia Pacific, and the Rest of the World)?
- Q.2 Which segments will grow at a faster pace and why?
- Q.3 Which regions will grow at a faster pace and why?
- Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the market?
- Q.5 What are the business risks and threats to the market?
- Q.6 What are the emerging trends in this market and the reasons behind them?
- Q.7 What are some changing demands of customers in the market?
- Q.8 What are the new developments in the market? Which companies are leading these developments?
- Q.9 Who are the major players in this market? What strategic initiatives are being implemented by key players for business growth?
- Q.10 What are some of the competitive products and processes in this area and how big of a threat do they pose for loss of market share via product substitution?
- Q.11 What M&A activity has occurred in the last 5 years?
