Acrylate Oligomer Trends and Forecast

The future of the global acrylate oligomer market looks promising with opportunities in the automotive and transportation, chemical and plastic, building and construction, and paint & coating & adhesive markets. The global acrylate oligomer market is expected to reach an estimated \$2.5 billion by 2030 with a CAGR of 5.3% from 2024 to 2030. The major drivers for this market are increasing adoption of UV-cured resins and rising demand for this substrate from paints & coatings and adhesives & sealants industries.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Acrylate Oligomer by Segment

The study includes a forecast for the global acrylate oligomer by type, end use, and region.

Acrylate Oligomer Market by Type [Shipment Analysis by Value from 2018 to 2030]:

Urethane

Polyester

Laminated

Epoxy

Others

Acrylate Oligomer Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Automotive and Transportation

Chemicals and Plastics

Buildings and Construction

Paint & Coatings and Adhesives

Others

Acrylate Oligomer Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Acrylate Oligomer Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies acrylate oligomer companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the acrylate oligomer companies profiled in this report include-

Arkema

BASF

Covestro

Royal DSM

Hitachi Chemical

Nippon Gohsei

Lambson

Allnex Group

Jiangsu Sanmu Group

Toagosei

Acrylate Oligomer Market Insights

Lucintel forecasts that urethane is expected to witness the highest growth over the forecast period.

Within this market, paint & coating & adhesive is expected to witness the highest growth due to rising usage of acrylate oligomer in this sector given to its superior properties like fast curing, excellent chemical resistance, and high scratch resistance.

APAC will remain the largest region over the forecast period due to rise in urbanization and industrialization, existence of key manufacturing hubs, and growing demand for high-performance paints and coatings among automotive and construction industry of the region.

Features of the Global Acrylate Oligomer Market

Market Size Estimates: Acrylate oligomer market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Acrylate oligomer market size by type, end use, and region in terms of value (\$B).

Regional Analysis: Acrylate oligomer market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different types, end uses, and regions for the acrylate oligomer market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the acrylate oligomer market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the acrylate oligomer market size?

Answer: The global acrylate oligomer market is expected to reach an estimated \$2.5 billion by 2030.

Q2. What is the growth forecast for acrylate oligomer market?

Answer: The global acrylate oligomer market is expected to grow with a CAGR of 5.3% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the acrylate oligomer market?

Answer: The major drivers for this market are increasing adoption of UV-cured resins and rising demand for this substrate from paints & coatings and adhesives & sealants industries.

Q4. What are the major segments for acrylate oligomer market?

Answer: The future of the acrylate oligomer market looks promising with opportunities in the automotive and transportation, chemical and plastic, building and construction, and

paint & coating & adhesive markets.

Q5. Who are the key acrylate oligomer market companies?

Answer: Some of the key acrylate oligomer companies are as follows:

Arkema

BASF

Covestro

Royal DSM

Hitachi Chemical

Nippon Gohsei

Lambson

Allnex Group

Jiangsu Sanmu Group

Toagosei

Q6. Which acrylate oligomer market segment will be the largest in future?

Answer: Lucintel forecasts that urethane is expected to witness the highest growth over the forecast period.

Q7. In acrylate oligomer market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region over the forecast period due to rise in urbanization and industrialization, existence of key manufacturing hubs, and growing demand for high-performance paints and coatings among automotive and construction industry of the region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the acrylate oligomer market by type (urethane, polyester, laminated, epoxy, and others), end use (automotive and transportation, chemicals and plastics, buildings and construction, paint & coatings and adhesives, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
