Aerospace Interior Market Trends and Forecast

The future of the global aerospace interior market looks promising with opportunities in the commercial aircraft, regional aircraft, general aviation, helicopter, and military aircraft. The global aerospace interior market is expected to reach an estimated \$29.9 billion by 2027 with a CAGR of 2.8% from 2021 to 2027. The major growth drivers for this market are increasing deliveries of aircraft, replace and renovation of the aircraft interior and the increasing demand for the customized Interior.

Emerging Trends in the Global Aerospace Interior Market

Emerging trends, which has a direct impact on the dynamics of the industry, includes the increasing use of lightweight aerospace interior products/components, advancement in IFE structure, and introduction of integrated seat monitor connecting to passengers' devices

A total of 85 figures / charts and 69 tables are provided in this 158-page report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched, and other details of the global aerospace interior market report, please download the report brochure.

Aerospace Interior Market by Segments

In this market, commercial aircraft is the largest aircraft type, whereas seating is the largest in application. The study includes a forecast in the global aerospace interior market by aircraft type, application, fit type, and region as follows:

Aerospace Interior Market by Aircraft Type [Value (\$M) from 2016 to 2027]:

Commercial Aircraft

General Aviation

Regional Aircraft

Helicopter

Military Aircraft

Aerospace Interior Market by Application [Value (\$M) from 2016 to 2027]:

Seats

IFE

Galley

Stowage Bin

Lavatory

Panels

Others

Aerospace Interior Market by Fit Type [Value (\$M) from 2016 to 2027]:

Linefit

Retrofit

Aerospace Interior Market by Region [Value (\$M) from 2016 to 2027]:

North America

Europe

Asia Pacific

The Rest of the World

List of the Global Aerospace Interior Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies aerospace in the global aerospace interior companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the aerospace in the global aerospace interior companies profiled in this report includes.

Panasonic Avionics Corporation

Collins Aerospace

Diehl Aircraft

Safran

Thales Group

Aerospace Interior Market Insights

Lucintel forecasts that the seating segment will remain as the largest segment because of increasing demand for thinner seats which reduces seat pitch value and provide additional seats in the same area of an aircraft.

By fit type, line fit is expected to remain the largest segment by value due to increase in the aircraft delivery.

Europe is expected to remain the largest region due to a significant increase in aircraft deliveries and increasing demand for lightweight materials.

Features of the Global Aerospace Interior Market

Market Size Estimates: The global aerospace interior market size estimation in terms of value (\$M).

Trend and Forecast Analysis: Market trends (2016-2021) and forecast (2022-2027) by various segments and regions.

Segmentation Analysis: Global aerospace interior market size by various segments, such as aircraft type, application, fit type, and region in terms of value.

Regional Analysis: The global aerospace interior market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different aircraft type, application, fit type, and regions in the global aerospace interior market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the global aerospace interior market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the global aerospace interior market size?

Answer: The global aerospace interior market is expected to reach an estimated \$29.9 billion by 2027.

Q2. What is the growth forecast for the global aerospace interior market?

Answer: The global aerospace interior market is expected to grow at a CAGR of 5.2% from 2021 to 2027.

Q3. What are the major drivers influencing the growth of the global aerospace interior market?

Answer: The major drivers for this market are increasing deliveries of aircraft, replace and renovation of the aircraft interior and the increasing demand for the customized Interior.

Q4. What are the major type or end use industries for the global aerospace interior?

Answer: Commercial aircraft is the major segment by aircraft type in the global aerospace interior.

Q5. What are the emerging trends in the global aerospace interior market?

Answer: Emerging trends, which have a direct impact on the dynamics of the industry, include the increasing use of lightweight aerospace interior products/components, advancement in IFE structure, and introduction of integrated seat monitor connecting to passengers' devices

Q6. Who are the key aerospace interior companies?

Answer: Some of the key aerospace interior companies are as follows:

Panasonic Avionics Corporation

Collins Aerospace

Diehl Aircraft

Safran

Thales Group

Q7. Which aerospace interior application segment will be the largest in future?

Answer: Lucintel forecasts that seats will remain the largest application

Q8. In the global aerospace interior market, which region is expected to be the largest in next 5 years?

Answer: Europe is expected to remain the largest region due to largest number of aircraft OEMs in this region and production of aircraft.

Q9. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1 What are some of the most promising, high-growth opportunities in the global aerospace interior market by aircraft type (commercial aircraft, regional aircraft, general aviation, helicopter, and military aircraft), by application (seats, IFE, galley, stowage bin, lavatory and others), by fit type (linefit, and retrofit), and by region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which region will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges in this market?

Q.5 What are the business risks and threats of this market?

Q.6 What are emerging trends in this market and reasons behind them?

Q.7 What are some of the changing demands of customers in the market?

Q.8 What are the new developments in the in the global aerospace interior market? Which companies are leading these developments?

Q.9 Who are the major players in this market? What strategic initiatives are being

implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in this in the global aerospace interior market area and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activity has occurred in the last 5 years?

Contents

Table of Contents

1. EXECUTIVE SUMMARY

2. GLOBAL AEROSPACE INTERIOR MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS (2016-2021) AND FORECAST (2022-2027)

3.1: Global Aerospace Interior Market Trends (2016-2021) and Forecast (2022-2027)

3.2: Global Aerospace Interior Market by Aircraft Type

3.2.1: Commercial Aircraft

3.2.2: Regional Aircraft

3.2.3: General Aviation

3.2.4: Helicopter

3.2.5: Military Aircraft

3.3: Global Aerospace Interior Market by Application

3.3.1: Seating

3.3.2: IFE

3.3.3: Galleys

3.3.4: Stowage Bin

3.3.5: Panels

3.3.6: Lavatory

3.3.7: Others

3.4: Global Aerospace Interior Market by Fit Type

3.4.1: Line fit

3.4.2: Retrofit

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2016-2027

4.1: Global Aerospace Interior Market by Region

4.2: North American Aerospace Interior Market

4.2.1: The US Aerospace Interior Market

4.2.2: Canadian Aerospace Interior Market

- 4.3: European Aerospace Interior Market
 - 4.3.1: French Aerospace Interior Market
 - 4.3.2: Russian Aerospace Interior Market
- 4.4: APAC Aerospace Interior Market
 - 4.4.1: Chinese Aerospace Interior Market
 - 4.4.2: Japanese Aerospace Interior Market
- 4.5: ROW Aerospace Interior Market
 - 4.5.1: Brazilian Aerospace Interior Market

5. COMPETITOR ANALYSIS

- 5.1: Product Portfolio Analysis
- 5.2: Operational Integration
- 5.3: Geographical Reach
- 5.4: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITY AND STRATEGIC ANALYSIS

- 6.1: Growth Opportunity Analysis
 - 6.1.1: Growth Opportunities for the Global Aerospace Interior Market by Aircraft Type
 - 6.1.2: Growth Opportunities for the Global Aerospace Interior Market by Application
 - 6.1.3: Growth Opportunities for the Global Aerospace Interior Market by Fit Type
 - 6.1.4: Growth Opportunities for the Global Aerospace Interior Market by Region
- 6.2: Emerging Trends in Global Aerospace Interior Market
- 6.3: Strategic Analysis
 - 6.3.1: New Product Development
 - 6.3.2: Capacity Expansion of the Global Aerospace Interior Market
 - 6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Aerospace Interior Market

7. COMPANY PROFILES OF LEADING PLAYERS

- 7.1: Panasonic Avionics Corporation
- 7.2: Zodiac Aerospace
- 7.3: Thales Group
- 7.4: B/E Aerospace
- 7.5: RECARO Aircraft Seating
- 7.6: JAMCO Corporation
- 7.7: Diehl Group

7.8: AIM Altitude

7.9: Aerolux

7.10: VT Volant
