Lucintel forecasts that standalone laser will remain the largest segment over the forecast period as it is less time consuming and non-invasive in operation.

Within this market, hair removal will remain the largest segment by application over the forecast period due to increasing prevalence of polycystic ovarian syndrome, in which excess hair growth is observed in patient's body.

North America will remain the largest region and it is also expected to witness the highest growth over the forecast period due to rising prevalence of skin problems, like acne, pigmentation, scarring which are intrigued due to hectic life schedules in the region.

Features of the Global Aesthetic/Cosmetic Laser Device Market

Market Size Estimates: Global aesthetic/cosmetic laser device market size estimation in terms of value (\$M) shipment.

Trend and Forecast Analysis: Market trends (2014-2019) and forecast (2020-2025) by various segments.

Segmentation Analysis: Global aesthetic/cosmetic laser device market size by various segments, such as device type, application, and end use in terms of value.

Regional Analysis: Global aesthetic/cosmetic laser device market breakdown by the North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different device type, application, end use, and region for the global aesthetic/cosmetic laser device market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the global aesthetic/cosmetic laser device market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global aesthetic/cosmetic laser device market by device type (standalone laser

devices(carbon dioxide (CO2) laser, erbium yag laser, diode laser, pulsed dye laser (PDL), ND:yag laser, alexandrite laser, and others) and multiplatform laser devices), application (vascular lesions, acne, and scars, pigmented lesions and tattoos, hair removal, skin rejuvenation, leg veins and varicose veins and others), end use (hospitals, private clinics, and medical spas), and region (North America, Europe, Asia Pacific, and Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which region will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the global aesthetic/cosmetic laser device market?

Q.5 What are the business risks and threats to the global aesthetic/cosmetic laser device market?

Q.6 What are the emerging trends in this aesthetic/cosmetic laser device market and the reasons behind them?

Q.7 What are some changing demands of customers in this aesthetic/cosmetic laser device market?

Q.8 What are the new developments in this aesthetic/cosmetic laser device market? Which companies are leading these developments?

Q.9 Who are the major players in this aesthetic/cosmetic laser device market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in this aesthetic/cosmetic laser device market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the global aesthetic/cosmetic laser device market?
