Air Pollution Control System Trends and Forecast

The future of the global air pollution control system market looks promising with opportunities in the powertrain management, energy & power, mining, agriculture, semiconductor, medical & pharma, commercial & residential, and transportation markets. The global air pollution control system market is expected to reach an estimated \$106.1 million by 2030 with a CAGR of 5.0% from 2024 to 2030. The major drivers for this market are expanding industrial development, rising electricity use, and strict emission limits pertaining to air pollution.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Air Pollution Control System by Segment

The study includes a forecast for the global air pollution control system by type, product, application, end use, and region.

Air Pollution Control System Market by Type [Shipment Analysis by Value from 2018 to 2030]:

Indoor

Ambient

Air Pollution Control System Market by Product [Shipment Analysis by Value from 2018 to 2030]:

Scrubbers

Thermal Oxidizers

Catalytic Converters

Electrostatic Precipitators

Others

Air Pollution Control System Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Tunnels

Air Terminals

Underground Garages

Public Transportation Stations

Air Pollution Control

Automobile

Others

Air Pollution Control System Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Powertrain Management

Energy & Power

Mining

Agriculture

Semiconductor

Medical & Pharma

Commercial & Residential

Transportation

Others

Air Pollution Control System Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Air Pollution Control System Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies air pollution control system companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the air pollution control system companies profiled in this report include-

General Electric

Siemens

Johnson Controls

Mitsubishi Hitachi Power Systems

Babcock & Wilcox Enterprises

Thermax

DuPont de Nemours

Air Pollution Control System Market Insights

Lucintel forecasts that tunnels and air terminals is expected to witness the highest growth over the forecast period due to their specific drivers, regulatory requirements, and increasing focus on passenger safety and environmental sustainability.

APAC will remain the largest region over the forecast period due to the region's high production rates, strong economic growth and large investments in key sectors such as power generation, manufacturing of chemicals and mining.

Features of the Global Air Pollution Control System Market

Market Size Estimates: Air pollution control system market size estimation in terms of value (\$M).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Air pollution control system market size by type, product, application, end use, and region in terms of value (\$M).

Regional Analysis: Air pollution control system market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different type, product, application, end use, and regions for the air pollution control system market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the air pollution control system market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the air pollution control system market size?

Answer: The global air pollution control system market is expected to reach an estimated \$106.1 million by 2030.

Q2. What is the growth forecast for air pollution control system market?

Answer: The global air pollution control system market is expected to grow with a CAGR of 5.0% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the air pollution control system market?

Answer: The major drivers for this market are expanding industrial development, rising electricity use, and strict emission limits pertaining to air pollution.

Q4. What are the major segments for air pollution control system market?

Answer: The future of the global air pollution control system market looks promising with opportunities in the powertrain management, energy & power, mining, agriculture, semiconductor, medical & pharma, commercial & residential, and transportation markets.

Q5. Who are the key air pollution control system market companies?

Answer: Some of the key air pollution control system companies are as follows:

General Electric

Siemens

Johnson Controls

Mitsubishi Hitachi Power Systems

Babcock & Wilcox Enterprises

Thermax

DuPont de Nemours

Q6. Which air pollution control system market segment will be the largest in future?

Answer: Lucintel forecasts that tunnels and air terminals is expected to witness the highest growth over the forecast period due to their specific drivers, regulatory requirements, and increasing focus on passenger safety and environmental sustainability.

Q7. In air pollution control system market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region over the forecast period due to the region's high production rates, strong economic growth and large investments in key sectors such as power generation, manufacturing of chemicals and mining.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the air pollution control system market by type (indoor and ambient), product (scrubbers, thermal oxidizers, catalytic converters, electrostatic precipitators, and others), application (tunnels, air terminals, underground garages, public transportation stations, air pollution control, automobile, and others), end use (powertrain management, energy & power, mining, agriculture, semiconductor, medical & pharma, commercial &

residential, transportation, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to Air Pollution Control System Market, Air Pollution Control System Market Size, Air Pollution Control System Market Growth, Air Pollution Control System Market Analysis, Air Pollution Control System Market Report, Air Pollution Control System Market Share, Air Pollution Control System Market Trends, Air Pollution Control System Market Forecast, Air Pollution Control System Companies, write Lucintel analyst at email: helpdesk@lucintel.com. We will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL AIR POLLUTION CONTROL SYSTEM MARKET : MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030

3.1. Macroeconomic Trends (2018-2023) and Forecast (2024-2030)

3.2. Global Air Pollution Control System Market Trends (2018-2023) and Forecast (2024-2030)

3.3: Global Air Pollution Control System Market by Type

3.3.1: Indoor

3.3.2: Ambient

3.4: Global Air Pollution Control System Market by Product

3.4.1: Scrubbers

3.4.2: Thermal Oxidizers

3.4.3: Catalytic Converters

3.4.4: Electrostatic Precipitators

3.4.5: Others

3.5: Global Air Pollution Control System Market by Application

3.5.1: Tunnels

3.5.2: Air Terminals

3.5.3: Underground Garages

3.5.4: Public Transportation Stations

3.5.5: Air Pollution Control

3.5.6: Automobile

3.5.7: Others

3.6: Global Air Pollution Control System Market by End Use

3.6.1: Powertrain Management

3.6.2: Energy & Power

3.6.3: Mining

3.6.4: Agriculture

3.6.5: Semiconductor

3.6.6: Medical & Pharma

3.6.7: Commercial & Residential

3.6.8: Transportation

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2018 TO 2030

4.1: Global Air Pollution Control System Market by Region

4.2: North American Air Pollution Control System Market

4.2.1: North American Air Pollution Control System Market by Application: Tunnels, Air Terminals, Underground Garages, Public Transportation Stations, Air Pollution Control, Automobile, and Others

4.2.2: North American Air Pollution Control System Market by End Use: Powertrain Management, Energy & Power, Mining, Agriculture, Semiconductor, Medical & Pharma, Commercial & Residential, Transportation, and Others

4.3: European Air Pollution Control System Market

4.3.1: European Air Pollution Control System Market by Application: Tunnels, Air Terminals, Underground Garages, Public Transportation Stations, Air Pollution Control, Automobile, and Others

4.3.2: European Air Pollution Control System Market by End Use: Powertrain Management, Energy & Power, Mining, Agriculture, Semiconductor, Medical & Pharma, Commercial & Residential, Transportation, and Others

4.4: APAC Air Pollution Control System Market

4.4.1: APAC Air Pollution Control System Market by Application: Tunnels, Air Terminals, Underground Garages, Public Transportation Stations, Air Pollution Control, Automobile, and Others

4.4.2: APAC Air Pollution Control System Market by End Use: Powertrain Management, Energy & Power, Mining, Agriculture, Semiconductor, Medical & Pharma, Commercial & Residential, Transportation, and Others

4.5: ROW Air Pollution Control System Market

4.5.1: ROW Air Pollution Control System Market by Application: Tunnels, Air Terminals, Underground Garages, Public Transportation Stations, Air Pollution Control, Automobile, and Others

4.5.2: ROW Air Pollution Control System Market by End Use: Powertrain Management, Energy & Power, Mining, Agriculture, Semiconductor, Medical & Pharma, Commercial & Residential, Transportation, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Air Pollution Control System Market by Type

6.1.2: Growth Opportunities for the Global Air Pollution Control System Market by Product

6.1.3: Growth Opportunities for the Global Air Pollution Control System Market by Application

6.1.4: Growth Opportunities for the Global Air Pollution Control System Market by End Use

6.1.5: Growth Opportunities for the Global Air Pollution Control System Market by Region

6.2: Emerging Trends in the Global Air Pollution Control System Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Air Pollution Control System Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Air Pollution Control System Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: General Electric

7.2: Siemens

7.3: Johnson Controls

7.4: Mitsubishi Hitachi Power Systems

7.5: Babcock & Wilcox Enterprises

7.6: Thermax

7.7: DuPont de Nemours
