Automotive FPC Market Trends and Forecast

The future of the global automotive FPC market looks promising with opportunities in fuel automotive and new energy automotive applications. The global automotive FPC market is expected to reach an estimated \$0.93 billion by 2028 with a CAGR of 6.8% from 2023 to 2028. The major drivers for this market are growing demand for fuel-efficient and new energy vehicles, technological advancements in the automotive electronics, and increasing penetration of connected gadgets in the automotive industry.

A more than 150-page report is developed to help in your business decisions. A sample figure with some insights is shown below.

Automotive FPC Market by Segment

The study includes trends and forecast for the global automotive FPC market by product type, application, and region, as follows:

Automotive FPC Market by Product Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Double-Sided FPC

Multi-Layer FPC

Single-Sided FPC

Automotive FPC Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Fuel Automotive

New Energy Automotive

Automotive FPC Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Automotive FPC Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies, automotive FPC companies to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the automotive FPC companies profiled in this report include-

Nippon Mektron

Chin Poon Industrial

TTM

CMK

Meiko Electronics

Automotive FPC Market Insights

Lucintel forecasts that multi-layer FPC will remain the largest segment over the forecast period due to its extensive use in the automotive industries as it ensures improved heat dissipation and electrical conductivity.

Fuel automotive is expected to remain the larger application segment due to the increasing demand for electric vehicles and on-going technological advancement in automotive electronics.

APAC will remain the largest region due to growing automotive production and increasing consumer awareness of advanced security and safety features of vehicles in the region.

Features of the Automotive FPC Market

Market Size Estimates: Automotive FPC market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Automotive FPC market size by various segments, such as by product type, application, and region

Regional Analysis: Automotive FPC market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different product types, applications, and regions for the automotive FPC market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the automotive FPC market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the automotive FPC market size?

Answer: The global automotive FPC market is expected to reach an estimated \$0.93 billion by 2028.

Q2. What is the growth forecast for automotive FPC market?

Answer: The global automotive FPC market is expected to grow with a CAGR of 6.8% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the automotive FPC market?

Answer: The major drivers for this market are growing demand for fuel-efficient and new energy vehicles, technological advancements in the automotive electronics, and increasing penetration of connected gadgets in the automotive industry.

Q4. What are the major segments for automotive FPC market?

Answer: The future of the automotive FPC market looks promising with opportunities in fuel automotive and new energy automotive applications.

Q5. Who are the key automotive FPC companies?

Answer: Some of the key automotive FPC companies are as follows:

Nippon Mektron

Chin Poon Industrial

TTM

CMK

Meiko Electronics

Q6. Which automotive FPC segment will be the largest in future?

Answer: Lucintel forecasts that multi-layer FPC will remain the largest segment over the forecast period due to its extensive use in the automotive industries as it ensures improved heat dissipation and electrical conductivity.

Q7. In automotive FPC market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region due to growing automotive production and increasing consumer awareness of advanced security and safety features of vehicles in the region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key question

Q.1. What are some of the most promising, high-growth opportunities for the global automotive FPC market by product type (double-sided FPC, multi-layer FPC, and single-sided FPC), application (fuel automotive and new energy automotive), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last five years and what has its impact been on the industry?

For any questions related to automotive FPC market or related to automotive FPC companies, automotive FPC market size, automotive FPC market share, automotive FPC analysis, automotive FPC market growth, automotive FPC market research, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.
