Abstracts

The future of the global automotive insulation market looks promising with opportunities in the passenger car and light commercial vehicle market. The global automotive insulation market is expected to reach an estimated \$2.5 billion by 2024 with a CAGR of 3.5% from 2019 to 2024. The major drivers for this market are growth in automotive production and increasing demand for materials which provide high acoustic insulation and energy efficiency.

Emerging trends, which have a direct impact on the dynamics of the automotive insulation industry, include deployment of polyurethane nano-foams and development of fourth generation blowing agents.

A total of 152 figures/charts and 127 tables are provided in this 206 -page report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of this automotive insulation market report download the report brochure.

automotive insulation market by product

automotive insulation market

automotive insulation manufactuters

The study includes the automotive insulation market size and forecast for the global automotive insulation market through 2024, segmented by product type, function, by application, by vehicle type, and by region as follows:

Automotive Insulation Market by Application [Volume (Kilotons) and \$M shipment analysis from 2013 to 2024]:

Interior Under the Hood

Automotive Insulation Market by Product Type [Volume (Kilotons) and \$M shipment analysis from 2013 to 2024]:

PU Foam Elastomeric Foam Glass Wool Others

Automotive Insulation Market by Function [Volume (Kilotons) and \$M shipment analysis from 2013 to 2024]:

Acoustic Insulation Thermal Insulation

Automotive Insulation Market by Vehicle Type [Volume (Kilotons) and \$M shipment analysis from 2013 to 2024]:

Passenger Vehicle Small Car Compact Car Mid-Size Car Large Car SUV & Crossover Light Commercial Vehicle

Automotive Insulation Market by Region [Volume (Kilotons) and \$M shipment analysis for 2013 – 2024]:

North America United States Canada Mexico Europe Germany United Kingdom Italy France Asia Pacific China South Korea Japan India The Rest of the World

Some of the automotive insulation companies profiled in this report include Recticel, BASF, Armacell, Saint-Gobain, SoundTech Inc., Aeroflex Company Limited, UFP Technologies, Johns Manville, Avon Group Manufacturing, Siderise Group, and Covestro and others.

Lucintel forecasts that PU foam will remain the largest segment over the forecast period due to its light weight and higher thermal efficiency.

Within the automotive insulation market, passenger car segment is expected to remain the largest market and it is expected to witness highest growth over the forecast period due to increasing demand of compact and mid-size cars with low noise and higher vehicle comfort.

Europe will remain the largest region over the forecast period due to the stringent environmental protection regulations. Asia Pacific is expected to witness the highest growth over the forecast period due to increasing demand for small cars in China and India.

Some of the features of “Automotive Insulation Market Report: Trends, Forecast and Competitive Analysis” include:

Market size estimates: Global automotive insulation market size estimation in terms of value (\$M) and volume (M Lbs.) shipment. Trend and forecast analysis: Market trend (2013-2018) and forecast (2019-2024) by end use and use industry. Segmentation analysis: Global automotive insulation market size by product type, function, application, and vehicle type in terms of value and volume shipment. Regional analysis: Global automotive insulation market breakdown by North America, Europe, Asia Pacific, and the Rest of the World. Growth opportunities: Analysis on growth opportunities in different applications and regions in the global automotive insulation market. Strategic analysis: This includes M&A, new product development, and competitive landscape in the global automotive insulation market. Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions:

Q.1 What are some of the most promising, high-growth opportunities for the global automotive insulation market by product type (PU foam, elastomeric foam, glass wool, and others), by function (acoustic insulation and thermal insulation), by vehicle type (passenger vehicle and light commercial vehicle) and by region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the automotive insulation (automotive insulation market, automotive thermal insulation market, automotive cabin insulation market, automotive heat and sound insulation market, automotive PU foam insulation market, automotive PU foam insulation market, automotive glass wool insulation market) market?

Q.5 What are the business risks and threats to the automotive insulation (automotive insulation market, automotive thermal insulation market, automotive cabin insulation market, automotive heat and sound insulation market, automotive PU foam insulation market, automotive PU foam insulation market, automotive glass wool insulation market) market?

Q.6 What are the emerging trends in this automotive insulation (automotive insulation market, automotive thermal insulation market, automotive cabin insulation market, automotive heat and sound insulation market, automotive PU foam insulation market, automotive PU foam insulation market, automotive glass wool insulation market) market and reasons behind them?

Q.7 What are the changing demands of customers in the automotive insulation (automotive insulation market, automotive thermal insulation market, automotive cabin insulation market, automotive heat and sound insulation market, automotive PU foam

insulation market, automotive PU foam insulation market, automotive glass wool insulation market) market?

Q.8 What are the new developments in the automotive insulation (automotive insulation market, automotive thermal insulation market, automotive cabin insulation market, automotive heat and sound insulation market, automotive PU foam insulation market, automotive PU foam insulation market, automotive glass wool insulation market) market? Which companies are leading these developments?

Q.9 Who are the major players in this automotive insulation (automotive insulation market, automotive thermal insulation market, automotive cabin insulation market, automotive heat and sound insulation market, automotive PU foam insulation market, automotive PU foam insulation market, automotive glass wool insulation market) market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in this automotive insulation (automotive insulation market, automotive thermal insulation market, automotive cabin insulation market, automotive heat and sound insulation market, automotive PU foam insulation market, automotive PU foam insulation market, automotive glass wool insulation market) area and how big of a threat do they pose for loss of market share via product substitution?

Q.11 What M&A activity has occurred in the last 5 years in this automotive insulation (automotive insulation market, automotive thermal insulation market, automotive cabin insulation market, automotive heat and sound insulation market, automotive PU foam insulation market, automotive PU foam insulation market, automotive glass wool insulation market) market?

5. COMPETITOR ANALYSIS

- 5.1: Product Portfolio Analysis
- 5.2: Market Share Analysis
- 5.3: Geographical Reach
- 5.4: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

- 6.1: Growth Opportunity Analysis
 - 6.1.1: Growth Opportunities for the Global Automotive Insulation Market by Product Type
 - 6.1.2: Growth Opportunities for the Global Automotive Insulation Market by Application
 - 6.1.3: Growth Opportunities for the Global Automotive Insulation Market by Region
- 6.2: Emerging Trends of the Global Automotive Insulation Market
- 6.3: Strategic Analysis
 - 6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Automotive Insulation Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Automotive Insulation Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: BASF

7.2: Covestro

7.3: Armacell International S.A

7.4: Johns Manville

7.5: Recticel

7.6: UFP Technologies

7.7: Saint-Gobain S.A.

7.8: Aeroflex Company Limited

7.9: SoundTech Inc. ?
