Abstracts

The future of the bathtub market looks good with opportunities in residential and non-residential buildings. The global bathtub market is expected to reach an estimated \$9.9 billion by 2023 with a CAGR of 3.7% from 2018 to 2023. The major drivers for the growth of this market are a rise in housing construction, increasing demand for luxury plumbing fixtures, and a rise in household income.

Emerging trends, which have a direct impact on the dynamics of the bathtub by industry, are the introduction of high-tech bathtubs with advanced features including wall-mounted LCD, hydrotherapy features, and the increasing adoption of soaking tubs.

A total of 103 figures/charts and 72 tables are provided in this 162 -page report to help in your business decisions. Sample figures with some insights are shown below.
