The future of the bioprocess container market looks promising with opportunities in biopharmaceutical and life science research and development companies. The global bioprocess container market is expected to grow with a CAGR of 12%-14% from 2020 to 2025. The major drivers for this market are increasing demand for biologics, increasing demand for single use bioprocess technologies, and vaccine production.

A total of XX figures / charts and XX tables are provided in this more than 150-page report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched, and other details of the global bioprocess container market report, please download the report brochure.

In this market, 2D bioprocess container is the largest type of bioprocess container, whereas biopharmaceutical companies is the largest end user. Growth in various segments of the bioprocess container market are given below:

The study includes trends and forecast for the global bioprocess container market by type, application, end user, and region as follows:

By Type [Value (\$ Million) shipment analysis for 2014 – 2025]:

2D Bioprocess Containers

3D Bioprocess Containers

Other Containers and Accessories

By Application [Value (\$ Million) shipment analysis for 2014 – 2025]:

Upstream Processes

Downstream Processes

Process Development

By End User [Value (\$ Million) shipment analysis for 2014 – 2025]:

Biopharmaceutical Companies

Life Science R&D Companies

By Region [Value (\$ Million) shipment analysis for 2014 – 2025]:

North America

United States

Canada

Mexico

Europe

United Kingdom

Spain

Germany

France

Asia Pacific

China

India

Japan

The Rest of the World

Brazil

Some of the bioprocess container companies profiled in this report include Thermo Fisher Scientific, Sartorius, GE Healthcare, Merck, Danaher Corporation, Lonza, Fenner, Meissner, Rim Bio, and Fluids Control.

Lucintel forecasts that the 2D bioprocess container segment will remain the largest type market over the forecast period due to increasing demand for bioprocess containers in the biopharmaceutical industry.

Within this market, biopharmaceutical companies will remain the largest end user segment over the forecast period due to increasing expenditure on research and development and cost-effectiveness of bioprocess containers.

North America will remain the largest region over the forecast period due to growth in demand for biologics in the region, affordability and sustainability of single-use bioprocess technologies, vaccine production using single-use disposable technologies in US, and the lower risk of cross contamination.

Features of the Global Bioprocess Container Market

Market Size Estimates: Global bioprocess container market size estimation in terms of value (\$M) shipment.

Trend and Forecast Analysis: Market trends (2014-2019) and forecast (2020-2025) by various segments.

Segmentation Analysis: Global bioprocess container market size by various

segments, such as type, application, and end user, in terms of value.

Regional Analysis: Global bioprocess container market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different types, applications, end users, and regions for the global bioprocess container market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the global bioprocess container market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global bioprocess container market by type (2D bioprocess containers, 3D bioprocess containers, and other containers and accessories), application (upstream processes, downstream processes, and process development), end user (biopharmaceutical companies and life science R&D companies), and region (North America, Europe, Asia Pacific, and Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which region will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the global bioprocess container market?

Q.5 What are the business risks and threats to the global bioprocess container market?

Q.6 What are the emerging trends in the bioprocess container market and the reasons behind them?

Q.7 What are some changing demands of customers in the bioprocess container market?

Q.8 What are the new developments in the bioprocess container market? Which companies are leading these developments?

Q.9 Who are the major players in the bioprocess container market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the bioprocess container market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the global bioprocess container market?

Report Scope

Key Features Description

Base Year for Estimation 2019

Trend Period

(Actual Estimates) 2014-2019

Forecast Period 2020-2025

Pages More than 150

Market Representation / Units Revenue in US \$ Million

Report Coverage Market Trends & Forecast, Competitor Analysis, New Product Development, Company Expansion, Mergers, Acquisitions, & Joint Venture, and Company Profiling

Market Segments Type (2D Bioprocess Containers, 3D Bioprocess Containers, and Other Containers & Accessories), Application (Upstream Processes, Downstream Processes, and Process Development), End User (Biopharmaceutical Companies and Life Science R&D Companies)

Regional Scope North America (USA, Mexico, and Canada), Europe (United Kingdom, Spain, Germany, and France), Asia (China, India, and Japan), and ROW (Brazil)

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2014 T 2025

3.1: Macroeconomic Trends and Forecast

3.2: Global Bioprocess Container Market Trends and Forecast

3.3: Global Bioprocess Container Market by Type

3.3.1: 2D Bioprocess Containers

3.3.2: 3D Bioprocess Containers

3.3.3: Other Containers and Accessories

3.4: Global Bioprocess Container Market by Application

3.4.1: Upstream Processes

3.4.2: Downstream Processes

3.4.3: Process Development

3.5: Global Bioprocess Container Market by End User

3.5.1: Biopharmaceutical Companies

3.5.2: Life Science R&D Companies

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION

4.1: Global Bioprocess Container Market by Region

4.2: North American Bioprocess Container Market

4.2.1: Market by Type: 2D Bioprocess Containers, 3D Bioprocess Containers, and Other Containers & Accessories

4.2.2: Market by Application: Upstream Processes , Downstream Processes, and Process Development

4.2.3: Market by End User: Biopharmaceutical Companies and Life Science R&D Companies

4.2.4: The United States Bioprocess Container Market

4.2.5: The Canadian Bioprocess Container Market

4.2.6: The Mexican Bioprocess Container Market

4.3: European Bioprocess Container Market

4.3.1: Market by Type: 2D Bioprocess Containers, 3D Bioprocess Containers, and Other Containers & Accessories

4.3.2: Market by Application: Upstream Processes , Downstream Processes, and Process Development

4.3.3: Market by End User: Biopharmaceutical Companies and Life Science R&D Companies

4.3.4: The United Kingdom Bioprocess Containers Market

4.3.5: The Spanish Bioprocess Container Market

4.3.6: The German Bioprocess Container Market

4.3.7: The French Bioprocess Container Market

4.4: APAC Bioprocess Container Market

4.4.1: Market by Type: 2D Bioprocess Containers, 3D Bioprocess Containers, and Other Containers & Accessories

4.4.2: Market by Application: Upstream Processes , Downstream Processes, and Process Development

4.4.3: Market by End User: Biopharmaceutical Companies and Life Science R&D Companies

4.4.4: The Chinese Bioprocess Container Market

4.4.5: The Indian Bioprocess Container Market

4.4.6: The Japanese Bioprocess Container Market

4.5: ROW Bioprocess Container Market

4.5.1: Market by Type: 2D Bioprocess Containers, 3D Bioprocess Containers, and Other Containers & Accessories

4.5.2: Market by Application: Upstream Processes , Downstream Processes, and Process Development

4.5.3: Market by End User: Biopharmaceutical Companies and Life Science R&D Companies

4.5.4: Brazilian Bioprocess Container Market

5. COMPETITOR ANALYSIS

5.1: Market Share Analysis

5.2: Product Portfoli Analysis

5.3: Operational Integration

5.4: Geographical Reach

5.5: Porter's Five Forces Analysis

6. COST STRUCTURE ANALYSIS

- 6.1: Cost of Goods Sold
- 6.2: SG&A
- 6.3: EBITDA Margin

7. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

7.1: Growth Opportunity Analysis

- 7.1.1: Growth Opportunities for the Global Bioprocess Container Market by Type
- 7.1.2: Growth Opportunities for the Global Bioprocess Container Market by Application
- 7.1.3: Growth Opportunities for the Global Bioprocess Container Market by End User
- 7.1.4: Growth Opportunities for the Global Bioprocess Container Market by Region

7.2: Emerging Trends in the Global Bioprocess Container Market

7.3: Strategic Analysis

- 7.3.1: New Product Development
- 7.3.2: Capacity Expansion of the Global Bioprocess Container Market
- 7.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Bioprocess Container

Market

- 7.3.4: Certification and Licensing

8. COMPANY PROFILES OF LEADING PLAYERS

- 8.1: Thermo Fisher Scientific
- 8.2: Sartorius
- 8.3: GE Healthcare
- 8.4: Merck KGaA
- 8.5: Danaher Corporation
- 8.6: Company
- 8.7: Company
- 8.8: Company
- 8.9: Company
- 8.10: Company
