Bulk Continuous Filament Yarn Market Trends and Forecast

The future of the global bulk continuous filament yarn market looks promising with opportunities in residential, non residential construction, and transportation industries. The global bulk continuous filament yarn market is expected to reach an estimated \$20.5 billion by 2030 with a CAGR of 5.4% from 2024 to 2030. The major drivers for this market are growth in residential construction and increasing consumer interest towards home decoration.

Emerging Trends in the Bulk Continuous Filament Yarn Market

Emerging trends, which have a direct impact on the dynamics of the industry, include use of bio based bulk continuous filament yarn and advancement in technology to develop pollution free BCF yarn.

A total of 153 figures / charts and 129 tables are provided in this 200-page report to help in your business decisions. Sample figures with insights are shown below.

Bulk Continuous Filament Yarn Market by Segment

The study includes a forecast for the global bulk continuous filament yarn market by application, polymer type, denier type, end use, and region, as follows:

Bulk Continuous Filament Yarn Market by Polymer Type [Volume (M lbs) and \$M shipment analysis for 2018 – 2030]:

Nylon

Polyester

Polypropylene

Others

Bulk Continuous Filament Yarn Market by Denier Type [Volume (M lbs) and \$M shipment analysis for 2018 – 2030]:

600-1200

1200-1800

1800-2400

2400-3000

Bulk Continuous Filament Yarn Market by Application [Volume (M lbs) and \$M shipment analysis for 2018 – 2030]:

Carpet & Rugs

Mats

Others

Bulk Continuous Filament Yarn Market by End Use [Volume (M lbs) and \$M shipment analysis for 2018 – 2030]:

Residential

Non-Residential

Others

Bulk Continuous Filament Yarn Market by Region [Volume (M lbs) and \$M shipment analysis for 2018 – 2030]:

North America

US

Canada

Mexico

Europe

Germany

Norway

France

Italy

Asia Pacific

China

Japan

South Korea

List of Bulk Continuous Filament Yarn Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies bulk continuous filament yarn companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the bulk continuous filament yarn companies profiled in this report includes.

Mohawk Industries

Aquafil

Shaw Industries

Beaulieu International Group

Toray Industries Incorporation

Ascend Performance Materials

Al Abdullatif Industrial Investment Company (AIIC)

Universal Fibers

Hyosung Advanced Materials

Pharr

Bulk Continuous Filament Yarn Market Insight

Lucintel forecasts that polyester will remain the largest polymer and it is also expected to witness the highest growth over the forecast period due to its low

price, durability, and stain resistance properties.

Carpet & rugs will remain the largest application and it is also expected to witness the highest growth over the forecast period due to increase in household and commercial spending.

North America will remain the largest region over the forecast period due to growth in residential construction. Asia Pacific is expected to witness the highest growth over the forecast period supported by ongoing urbanization in China, India and other Asian countries.

Features of Bulk Continuous Filament Yarn Market

Market Size Estimates: Bulk continuous filament yarn market size estimation in terms of value (\$M) and volume (M lbs)

Trend and Forecast Analysis: Market trends (2018-2023) and forecast (2024-2030) by various segments and regions.

Segmentation Analysis: Bulk continuous filament yarn market size by various segments, such as application, polymer type, denier type, end use in terms of value and volume

Regional Analysis: Bulk continuous filament yarn market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different application, polymer type, denier type, end use, and regions for the bulk continuous filament yarn market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the bulk continuous filament yarn market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the bulk continuous filament yarn market size?

Answer: The global bulk continuous filament yarn market is expected to reach an estimated \$20.5 billion by 2030.

Q2. What is the growth forecast for bulk continuous filament yarn market?

Answer: The bulk continuous filament yarn market is expected to grow at a CAGR of 5.4% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the bulk continuous filament yarn market?

Answer: The major drivers for this market are growth in residential construction and increasing consumer interest towards home decoration.

Q4. What are the major applications or end use industries for bulk continuous filament yarn?

Answer: Carpet & rugs, mats and others are the major application for bulk continuous filament yarn.

Q5. What are the emerging trends in bulk continuous filament yarn market?

Answer: Emerging trends, which have a direct impact on the dynamics of the industry, include use of bio based bulk continuous filament yarn and advancement in technology to develop pollution free BCF yarn

Q6. Who are the key bulk continuous filament yarn companies?

Answer: Some of the key bulk continuous filament yarn companies are as follows:

Mohawk Industries

Aquafil

Shaw Industries

Beaulieu International Group

Toray Industries Incorporation

Ascend Performance Materials

Al Abdullatif Industrial Investment Company (AIIC)

Universal Fibers

Hyosung Advanced Materials

Pharr

Q7.Which bulk continuous filament yarn product segment will be the largest in future?

Answer: Polyester will remain the largest polymer type and it is also expected to witness the highest growth over the forecast period due to its low price, durability, and stain resistance properties

Q8: In bulk continuous filament yarn market, which region is expected to be the largest in next 5 years?

Answer:North America will remain the largest region over the forecast and Asia Pacific is expected to witness the highest growth over next 5 years

Q9. Do we receive customization in this report?

Answer:Yes, Lucintel provides 10% Customization without any Additional Cost.

This report answers following 11 key questions

Q.1 What are some of the most promising, high-growth opportunities for the bulk continuous filament yarn market by application (carpet & rugs, mats and others), polymer type (Nylon, Polyester, Polypropylene and others), denier type (600-1200, 1200-1800, 1800-2400, and 2400-3000), end use (residential, non-residential, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q. 2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the market?

Q.5 What are the business risks and threats to the market?

Q.6 What are emerging trends in this market and the reasons behind them?

Q.7 What are some changing demands of customers in the market?

Q.8 What are the new developments in the market? Which companies are leading these developments?

Q.9 Who are the major players in this market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in this area and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M & A activities have taken place in the last 5 years in this market?
