A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Burst Strength Tester by Segment

The study includes a forecast for the global burst strength tester by type, end use industry, and region

Burst Strength Tester Market by Type [Shipment Analysis by Value from 2018 to 2030]:

Semi Automatic Burst Strength Tester

Fully Automatic Burst Strength Tester

Burst Strength Tester Market by End Use Industry [Shipment Analysis by Value from 2018 to 2030]:

Leather Industry

Paper and Pulp Industry

Textile Industry

•Others

Burst Strength Tester Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Burst Strength Tester Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies burst strength tester companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the burst strength tester companies profiled in this report include-

Asian Test Equipment

ABB

James Heal

Testex

Thwing-Albert Instrument Company

Presto

Gester

Qualitest International

Vertex

IDM Instruments

Burst Strength Tester Market Insights

Lucintel forecast that fully automatic burst strength tester is expected to witness highest growth over the forecast period

Within this market, paper and pulp industry will remain the largest segment

North America is expected to witness highest growth over the forecast period.

Q.3 What are the major drivers influencing the growth of the burst strength tester market?

Answer: The major drivers for this market are increasing need for burst strength testers that are fully automatic and semi automatic, significantly growing demand from paper and leather industries, and on-going technological advancements in burst strength testers.

Q4. What are the major segments for burst strength tester market?

Answer: The future of the global burst strength tester market looks promising with opportunities in the leather, paper and pulp, and textile industries.

Q5. Who are the key burst strength tester market companies?

Answer: Some of the key burst strength tester companies are as follows:

Asian Test Equipment

ABB

James Heal

Testex

Thwing-Albert Instrument Company

Presto

Gester

Qualitest International

Vertex

IDM Instruments

Q6. Which burst strength tester market segment will be the largest in future?

Answer: Lucintel forecast that fully automatic burst strength tester is expected to witness highest growth over the forecast period.

Q7. In burst strength tester market, which region is expected to be the largest in next 5 years?

Answer: North America is expected to witness highest growth over the forecast period.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the burst strength tester market by type (semi automatic burst strength tester and fully automatic burst strength tester), end use industry (leather industry, paper and pulp industry, textile industry, and others), and region (North America, Europe, Asia Pacific, and the Rest of

the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?
