Cake and Pastry Trends and Forecast

The future of the global cake and pastry market looks promising with opportunities in the food service and retail markets. The global cake and pastry market is expected to reach an estimated \$177.2 billion by 2030 with a CAGR of 3.7% from 2024 to 2030. The major drivers for this market are rising popularity of coffee shops or cafes, growing demand for visually appealing cake and pastry designs, and expanding preference for gluten-free and vegan cakes as well as pastries options.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.
